Defence Housing Authority Phase IX (DHA) is just minutes away from the main city. We are only minutes away from the main city, offering a friendly and family-like atmosphere while being at the heart of the city's vibrant lifestyle, including sports, entertainment, and dining options.

A campus lifestyle including safety, convenience, and access to amenities makes our campus the ideal place to study. We offer adequate facilities without compromising on comfort. As a student, you will be able to enjoy all the benefits of a campus lifestyle.

Medicine is a degree that requires a strong foundation in the field of medicine. Essential skills include enhanced skills and knowledge. An enhanced degree in medicine will help you realize your full potential. When you leave Arizona Medical College, you will have gained a new perspective on the medical field. We are focused on understanding how to practice surgical, procedural, and research techniques that enable the students to pursue a medical degree. Our faculty members are experts in their field, offering academic excellence, which will be taught by academicians who are genuine and passionate.

Arizona Medical College provides an atmosphere that attracts some of the brightest minds to study. This reflects our commitment to excellence. You will have access to some of the best medical colleges in the world. In fact, we have several medical institutions that are recognized in their own right, including the University of Arizona Medical College.

Arizona Medical College is one of the best medical colleges in the world. We have been included in international directories of the best medical colleges. Our programs are designed to prepare you for a career in medicine. We offer a comprehensive curriculum that includes basic sciences, clinical sciences, and research.

Choosing Arizona Medical College for medical study is an excellent decision. Our curriculum is designed to prepare you for a career in medicine. We have a strong reputation for excellence, and our graduates are highly sought after by top medical institutions around the world.
MR. ABDUL WAHEED SHEIKH

College of Allied Health Sciences, which is a part of the King Fahd University of Petroleum and Minerals, is committed to providing high-quality education to prepare students for successful careers in the healthcare field. The college offers a range of programs, including nursing, physical therapy, and other allied health professions.

Nursing Education

The college is dedicated to providing a comprehensive education that prepares students for a rewarding career in nursing. Our curriculum is designed to equip students with the knowledge and skills necessary to excel in the field. The faculty is committed to providing a supportive learning environment, ensuring that students receive the personalized attention they need to succeed.

Physical Therapy

Our physical therapy program is designed to prepare students for a career in this in-demand field. Students receive hands-on training in clinics and hospitals, gaining valuable experience in a variety of settings. The program is accredited by the Commission on Accreditation in Physical Therapy Education, ensuring that students receive a high-quality education.

We are proud to announce that our students have once again achieved a 100% pass rate on the National Licensing Exam for physical therapists.

Message from Chairman

I am particularly pleased with the hard work and dedication of our nursing faculty and students, who have achieved such remarkable results. Their success is a testament to the quality of our education and the support we provide to our students.

Our students benefit from state-of-the-art facilities on our campus, including our new state-of-the-art simulation center. This center is equipped with the latest technology, allowing students to gain practical experience in a safe and controlled environment.

The hospital provides all medical services at the hospital in the hospital, with both inpatient and outpatient care. The hospital is fully accredited by the Joint Commission on Accreditation of Healthcare Organizations, ensuring that patients receive the highest level of care.

Thank you for your support and for choosing King Fahd University of Petroleum and Minerals. We are committed to providing our students with the education and training they need to succeed in their careers.
It gives me great pleasure to compliment the Chairman of the Abdul Wali Khan Trust for Education and Welfare, the Board of Governors and the management of Avicenna Medical College for their hard work in setting up Avicenna Medical College in the Provincial capital of Peshawar. It is my sincere hope that this college will earn a good reputation and achieve the goals it has set for itself.

The Pakistan Armed Forces always support the welfare of the nation. I urge the Pakistani armed forces to support the education of the youth. The Youth and Education Geneve in the Armed Forces always supports the welfare of the nation.

Lt. Gen. (Retd) Rizwan A Qureshi
Board of Governors
PROF. DR. GULFREEN WASEED

The mission of Al Ain University is to provide students with an education that prepares them to become lifelong learners and leaders in their respective fields. The university is committed to providing a high standard of education that prepares graduates for successful careers in their chosen fields.

Principal Avicenna Medical College

MESSAGE FROM CO-CHAIRPERSON

As a co-founder and co-chairperson of Avicenna Medical College, I am committed to the mission of providing an education that prepares our students for success in their chosen careers. The college offers a wide range of programs and courses designed to help students develop the skills and knowledge they need to succeed.

The college is proud to offer a variety of programs that cater to the needs of students from different backgrounds and interests. Whether you are interested in a career in medicine, nursing, or another field, we have a program that will help you achieve your goals.

Avicenna Medical College is committed to providing a high-standard of education that prepares our students for success in their chosen careers. Thank you for choosing Avicenna Medical College as your educational partner. We look forward to working with you to achieve your academic and professional goals.
We look forward to making you part of the Alexander family.

Ph.D. Candidate, Entrepreneurship

Ms. Shandana Sheikh

We interrupt our usual schedule to bring you a special announcement. The Ph.D. candidate, Alexander Sheikh, is currently writing his dissertation. We have decided to offer him a full-time position in our department, effective immediately. This is a unique opportunity for anyone interested in pursuing a career in entrepreneurship. Alexander has been making remarkable progress in his research and we are confident that he will make a valuable contribution to our field.

We are proud to announce that Alexander is now part of our team. His expertise and dedication will undoubtedly enrich our faculty and administration. We wish you all the best as you continue to pursue your academic and professional goals.

Elected by the Faculty

expertise in this specialty: to learn from current and innovative teaching and develop up-to-date skills, knowledge and complex dental educational structures. Students at Amazon Dental College get an opportunity to learn rehabilitation of patients, malting from the loss of a single tooth to the replacement of esthetics of our patients. It is the art and science of dentistry that concerns with the restoration of comfort, function and esthetics of our patients.
Our department is committed to providing comprehensive clinical care, incorporating non-surgical and surgical procedures. We are dedicated to educating and training students in the latest advances in periodontal disease therapy through our comprehensive curriculum. The department is known for its innovative use of advanced technologies and techniques in diagnosis and treatment. We aim to equip our students with the skills necessary to become leaders in the field of periodontology.

Periodontology is the branch of dentistry that focuses on the diseases and disorders of the periodontium, which includes the gums, the bone, and the connective tissue that supports the teeth. This discipline is integral to the overall health of the mouth and body, as the periodontium plays a crucial role in maintaining oral health and overall health.

The Department of Oral Pathology

The Department of Oral Pathology is dedicated to the education of dental students in the field of oral pathology. Through our comprehensive curriculum, we aim to provide our students with a strong foundation in the principles and practices of oral pathology, preparing them for success in their future careers.

The department focuses on the study of diseases of the oral cavity and adjacent structures, including the teeth, gums, and mouth. By offering a blend of didactic and clinical instruction, we strive to equip our students with the knowledge and skills necessary to diagnose and manage oral diseases effectively.

We believe in the importance of hands-on experience, and our students have the opportunity to work closely with our faculty in our state-of-the-art laboratories and clinical settings. This practical experience is crucial in developing the skills necessary to succeed as a practicing oral pathologist.

Our department is committed to providing the highest-quality education to all our students. We recognize the importance of a strong foundation in oral pathology as it forms the basis for many other disciplines in dentistry. Our goal is to prepare our students to become leaders in the field, equipped with the knowledge and skills necessary to provide exceptional care to their patients.

For more information about our programs and services, please visit our website or contact us directly. We look forward to your inquiry and hope to see you soon!
The Department of Dental Materials aims to provide students with the scientific background and the physical and chemical properties of all dental materials used in contemporary dentistry. An understanding of properties essential in both clinical and laboratory settings is important in the study of composite resin material selection and handling of materials is absolutely critical. The Department also has a dedicated lab for research purposes which helps to enhance practical dentistry. The department also has a dedicated lab for research in community dentistry. The Department of Community Dentistry provides knowledge which, provides knowledge of oral health and disease. The department aims to produce people who can educate the masses about dental health practices, prevention of oral disease and are able to include knowledge about individuals of group of people about dental health. The Department of Preventive Dentistry is dynamic.
