AVICENNA DENTAL COLLEGE

OVERVIEW

Avicenna Medical & Dental College is a leading, category 'A' Dental college recognised by the Pakistan Medical & Dental Council (PM&DC) and Pakistan Medical Commission (PMC). Avicenna Medical College has two teaching hospitals (530 bedded Avicenna Hospital and 120 bedded Aadil Hospital) and Avicenna Dental College has a Dental Hospital affiliated with it on campus. An inspiring teaching faculty, stunning campus & state of the art facilities are just a few reasons to choose Avicenna for medical study.

A' class Medical & Dental College in its own right is one of the best teaching institutes imparting Medical & Dental education in Lahore in fact, by virtue of which we have been included in the International Directory of Medical Colleges by FAIMER (Foundation for Advancement in Medical Education and Research). This reflects our commitment to attract some of the brightest minds to study, teach and undertake research.

Owing to its high standards in healthcare and Medical & Dental education, Avicenna Medical & Dental College secured A Category as inspected in 2019 as per PMC Inspection Criteria based on WFME Standards. You will be taught by academics who are genuine leaders in their field. Our academics embrace innovative teaching methods and techniques which help the students to decipher even the most complicated concept in a rational manner. We have one of the most advanced Skills Lab which enables the students to practice surgical techniques and procedures that enable them to gain confidence in their clinical skills and prepare them for practice based learning. We offer adequate hostel facilities on campus. While being just minutes away from the main city. (We are only 3 Kms from Lahore Ring Road -L20 and are located within Phase IX of Defence Housing Authority, Lahore).

WHAT WE OFFER

1

BACHELOR OF DENTAL SURGERY (BDS)

LICENSED BY
Pakistan Medical and Dental Council

AFFILIATED WITH
University of Health Sciences

RECOGNIZED BY

- Ministry of National Health Services and Regulation and Coordination (NHSR&C)
- Foundation for Advancement of International Medical Education and Research (FAIMER)
- World Federation of Medical Education (WFME)

2

DIPLOMA IN DENTAL TECHNICIAN IN COLLABORATION WITH INSTITUTE OF ALLIED HEALTH SCIENCES

LICENSED BY
Punjab Medical Faculty

WHY CHOOSE AVICENNA?

MISSION AND VISION

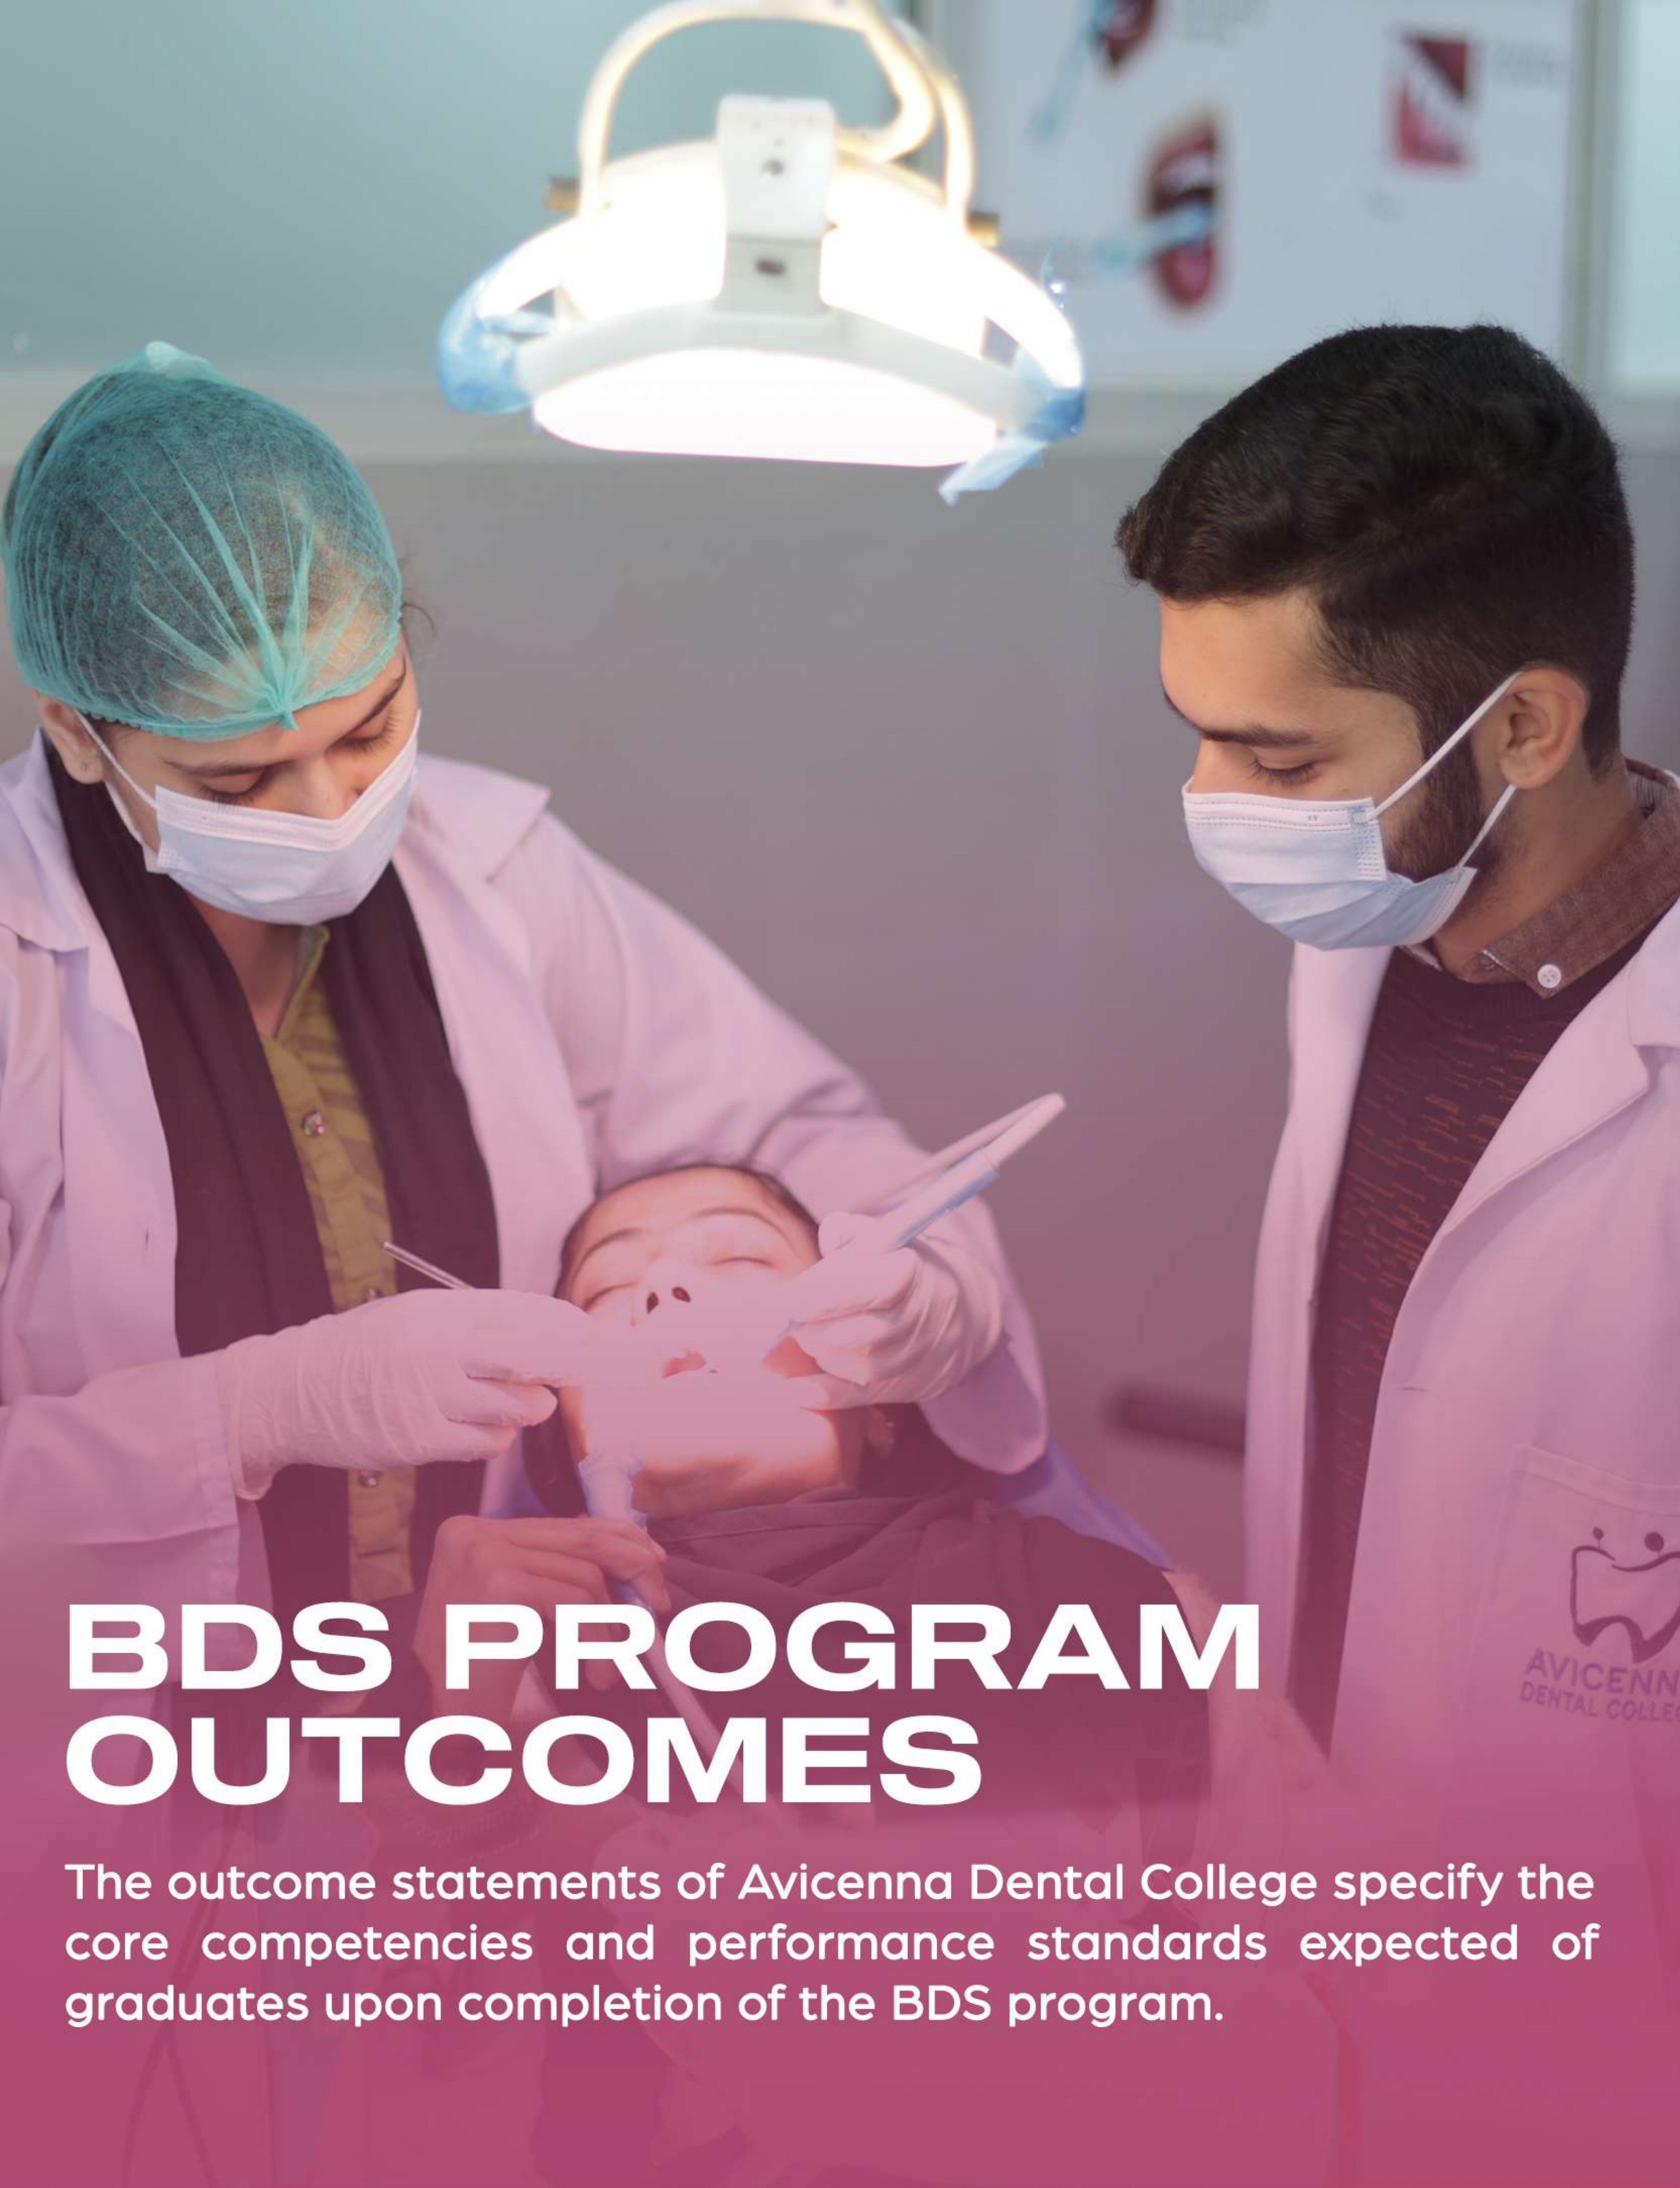

OUR MISSION

The mission of Avicenna Medical & Dental College is to educate and produce outstanding competent research oriented healthcare professionals with professional commitment and passion for lifelong learning from a group of motivated students through quality education, research and service delivery for improvement of health status of the general population.

OUR VISION

The vision of Avicenna Medical Dental College is to become a competitive medical and dental college that strives to achieve improvement in healthcare of masses through creative delivery of educational programs, innovative research, commitment to public service and community engagement in an environment that supports diversity, inclusion, creative thinking, social accountability, life-long learning and respect for all.

BDS PROGRAM OUTCOMES

The outcome statements of Avicenna Dental College specify the core competencies and performance standards expected of graduates upon completion of the BDS program.

Upon graduation, students will be able to:

- 1 Prioritize patient care above all, applying their knowledge and skills in a competent, ethical, and professional manner, and taking responsibility for their actions in complex and uncertain situations.
- 2 Conduct thorough consultations and assessments of patients.
- 3 Independently diagnose and manage common, non-critical dental and oral health conditions.
- 4 Assist in the management of critically ill patients as relevant to dental practice.
- 5 Demonstrate clear and efficient written and verbal communication skills.
- 6 Exhibit professional, ethical, and culturally appropriate behavior in all clinical and patient interactions.
- 7 Promote oral health and advocate for preventive measures against dental diseases.
- 8 Work effectively as a team member within Pakistan's healthcare system.
- 9 Apply critical thinking, reflection, research skills, and teamwork capabilities in clinical practice.
- 10 Pursue personal and professional development with a commitment to lifelong learning.

MESSAGE FROM THE CHAIRMAN

ABDUL WAHEED TRUST

Avicenna Medical & Dental College is a project of Abdul Waheed Trust which is a Non-profitable, Non-governmental, Non-political & Social organization, working for the welfare of Humanity and based on Community empowerment. Avicenna Medical College has its own 530 bedded Avicenna teaching Hospital (Not for Profit hospital) within the College Campus & 120 bedded Aadil Hospital, at 15 minutes distance. Separate comfortable hostels for boys & girls are provided on the campus.

Our students benefit from state of the art college libraries with internet facilities & online journal access round the clock. I am particularly pleased with the hard work by the faculty and students in the achievement of a historic 100% result for all the classes, it is a rare achievement and speaks of dedication of the Faculty and Staff. Our motto is "Goodness Prevails" and we aim at producing Doctors who are knowledgeable, competent in clinical skills and ethical values. Avicenna Medical College & Hospital was founded to provide quality health care services to the deserving patients belonging to the rural areas near Avicenna Hospital as well as to provide quality medical education of international standard to our students. We have already established two Satellite Clinics in the periphery which are providing outdoor care while admission cases are brought to the Hospital in Hospital transport.

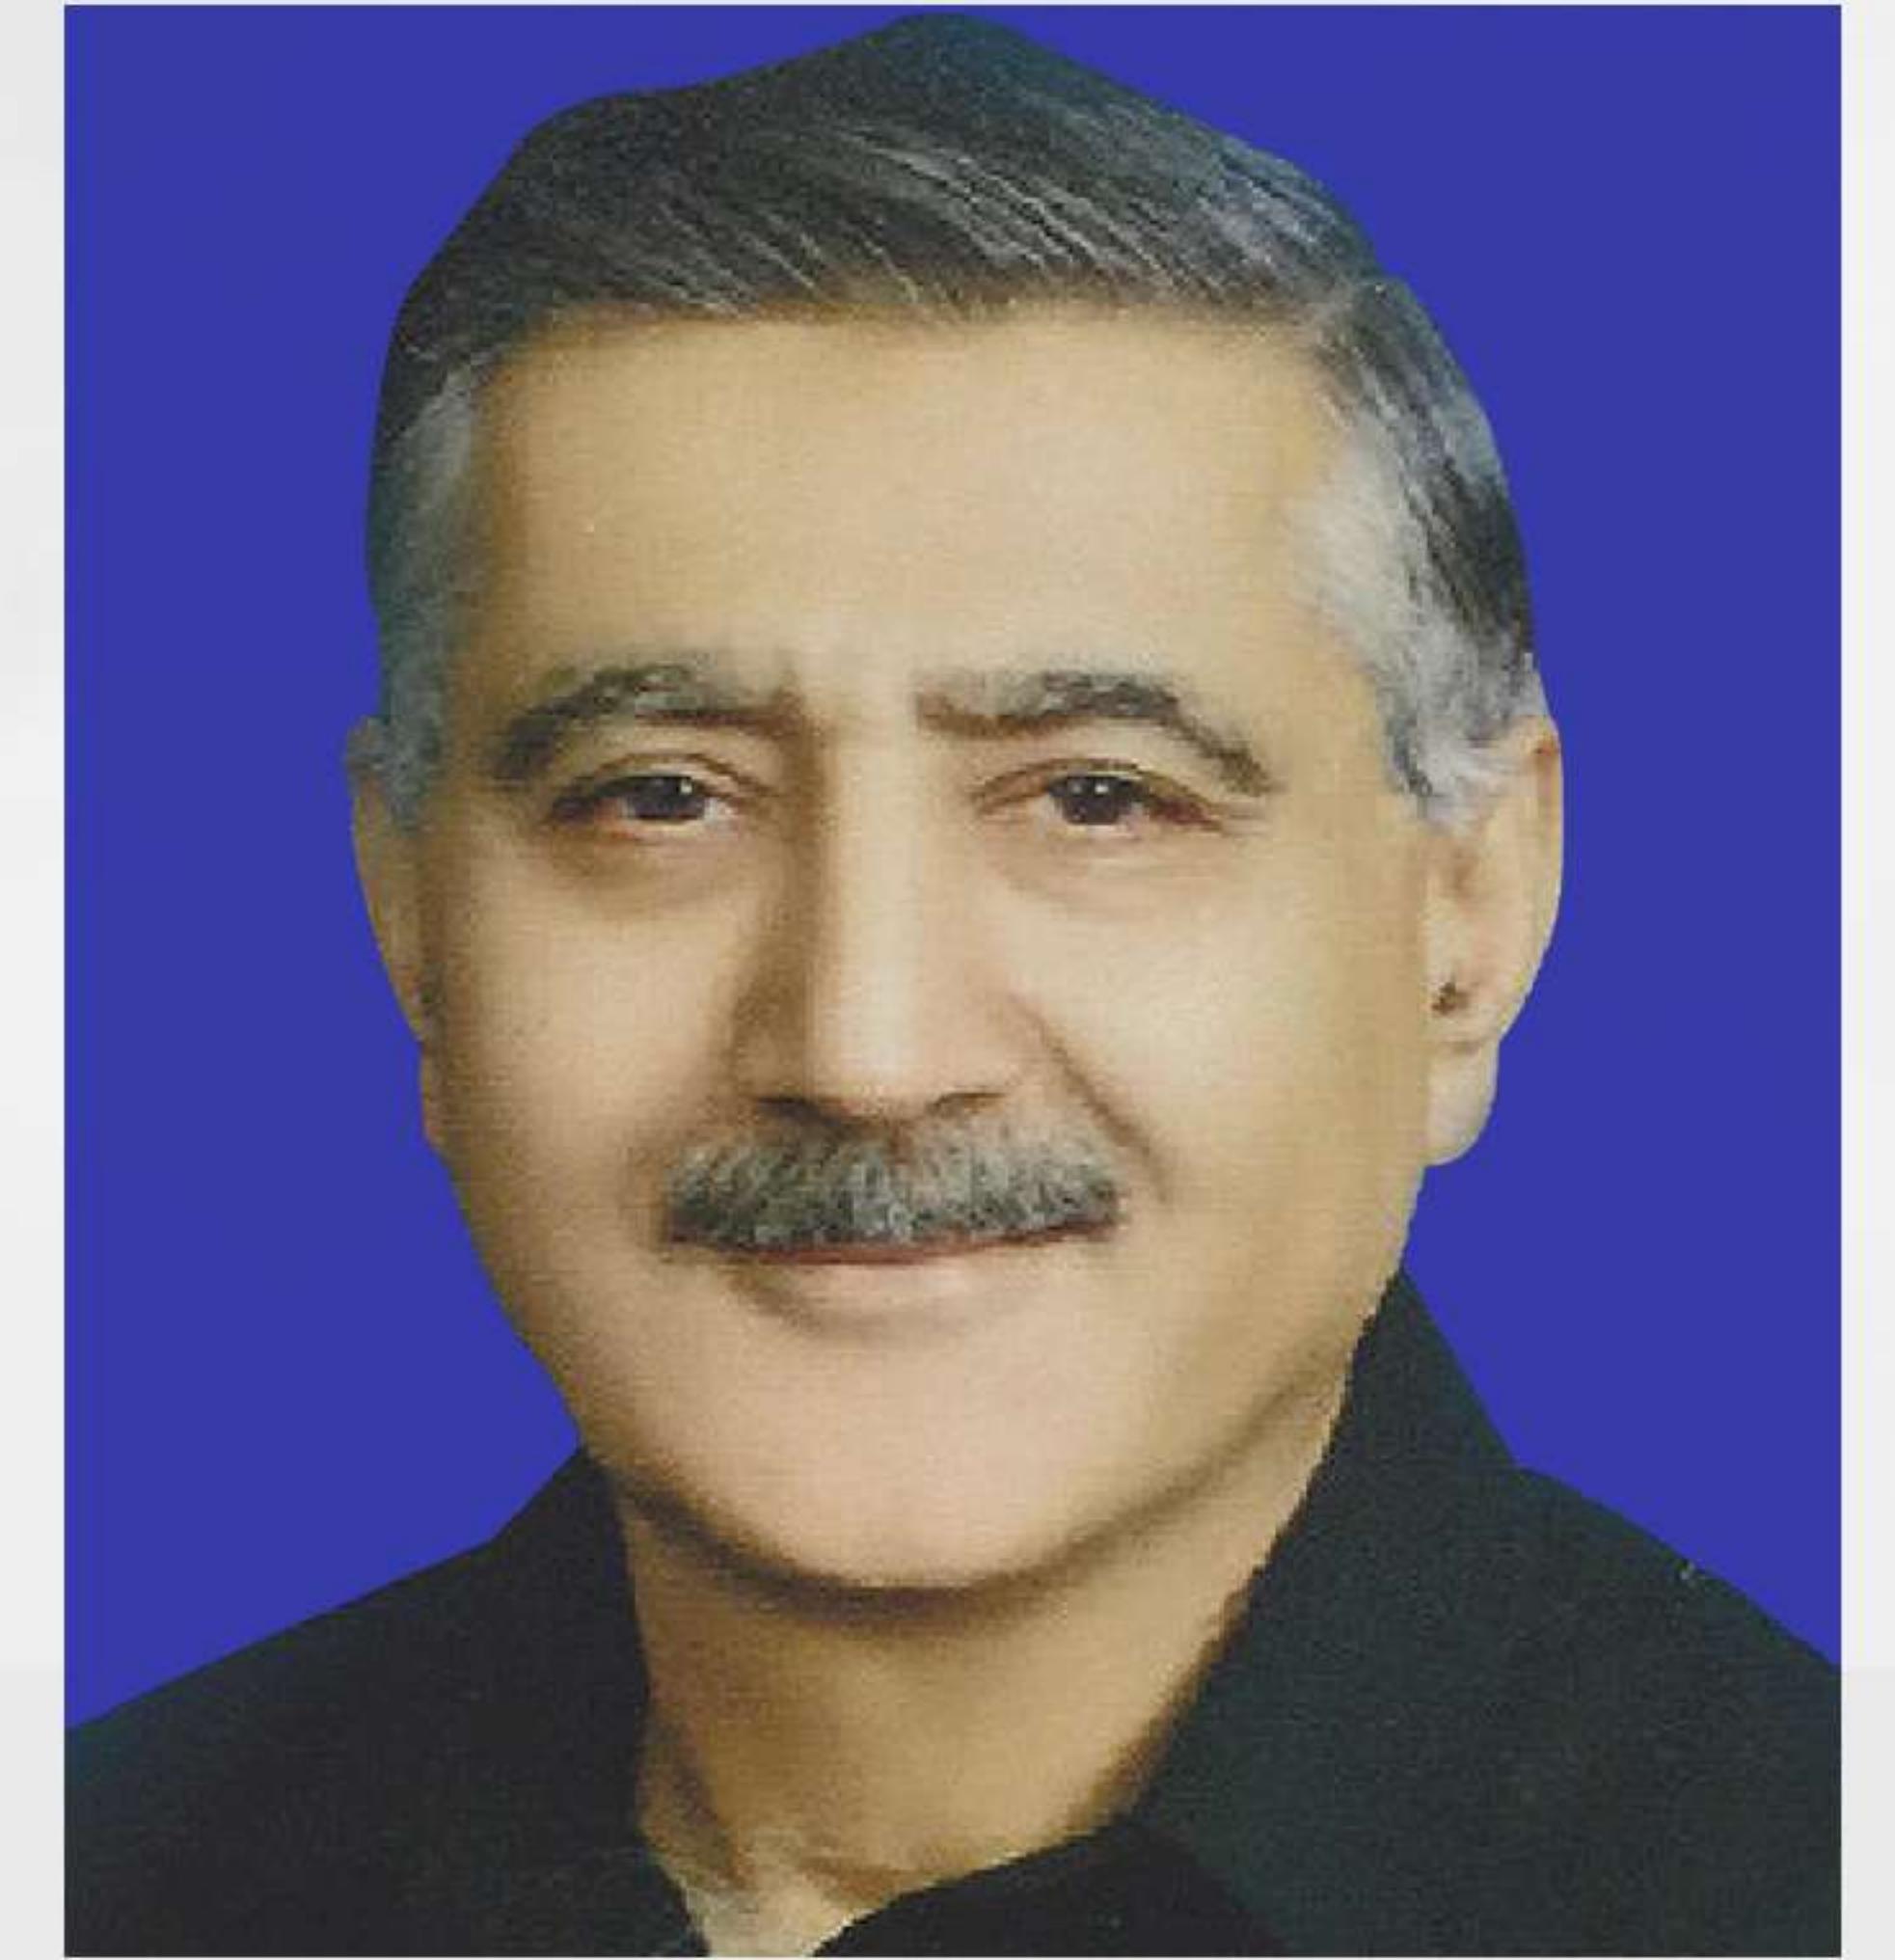

Following the success of our reputable Medical College and Hospital, we were able to successfully establish Avicenna Dental College which is recognised by the Pakistan Medical & Dental Council, Pakistan Medical Commission and University of Health Sciences. To date, we have successfully enrolled three batches in our Dental College and we aim to achieve the same level of success for our dental students as our Medical students.

ABDUL WAHEED SHEIKH
MSC STRATEGIC PLANNING

MESSAGE FROM THE CHAIRMAN

BOARD OF GOVERNORS

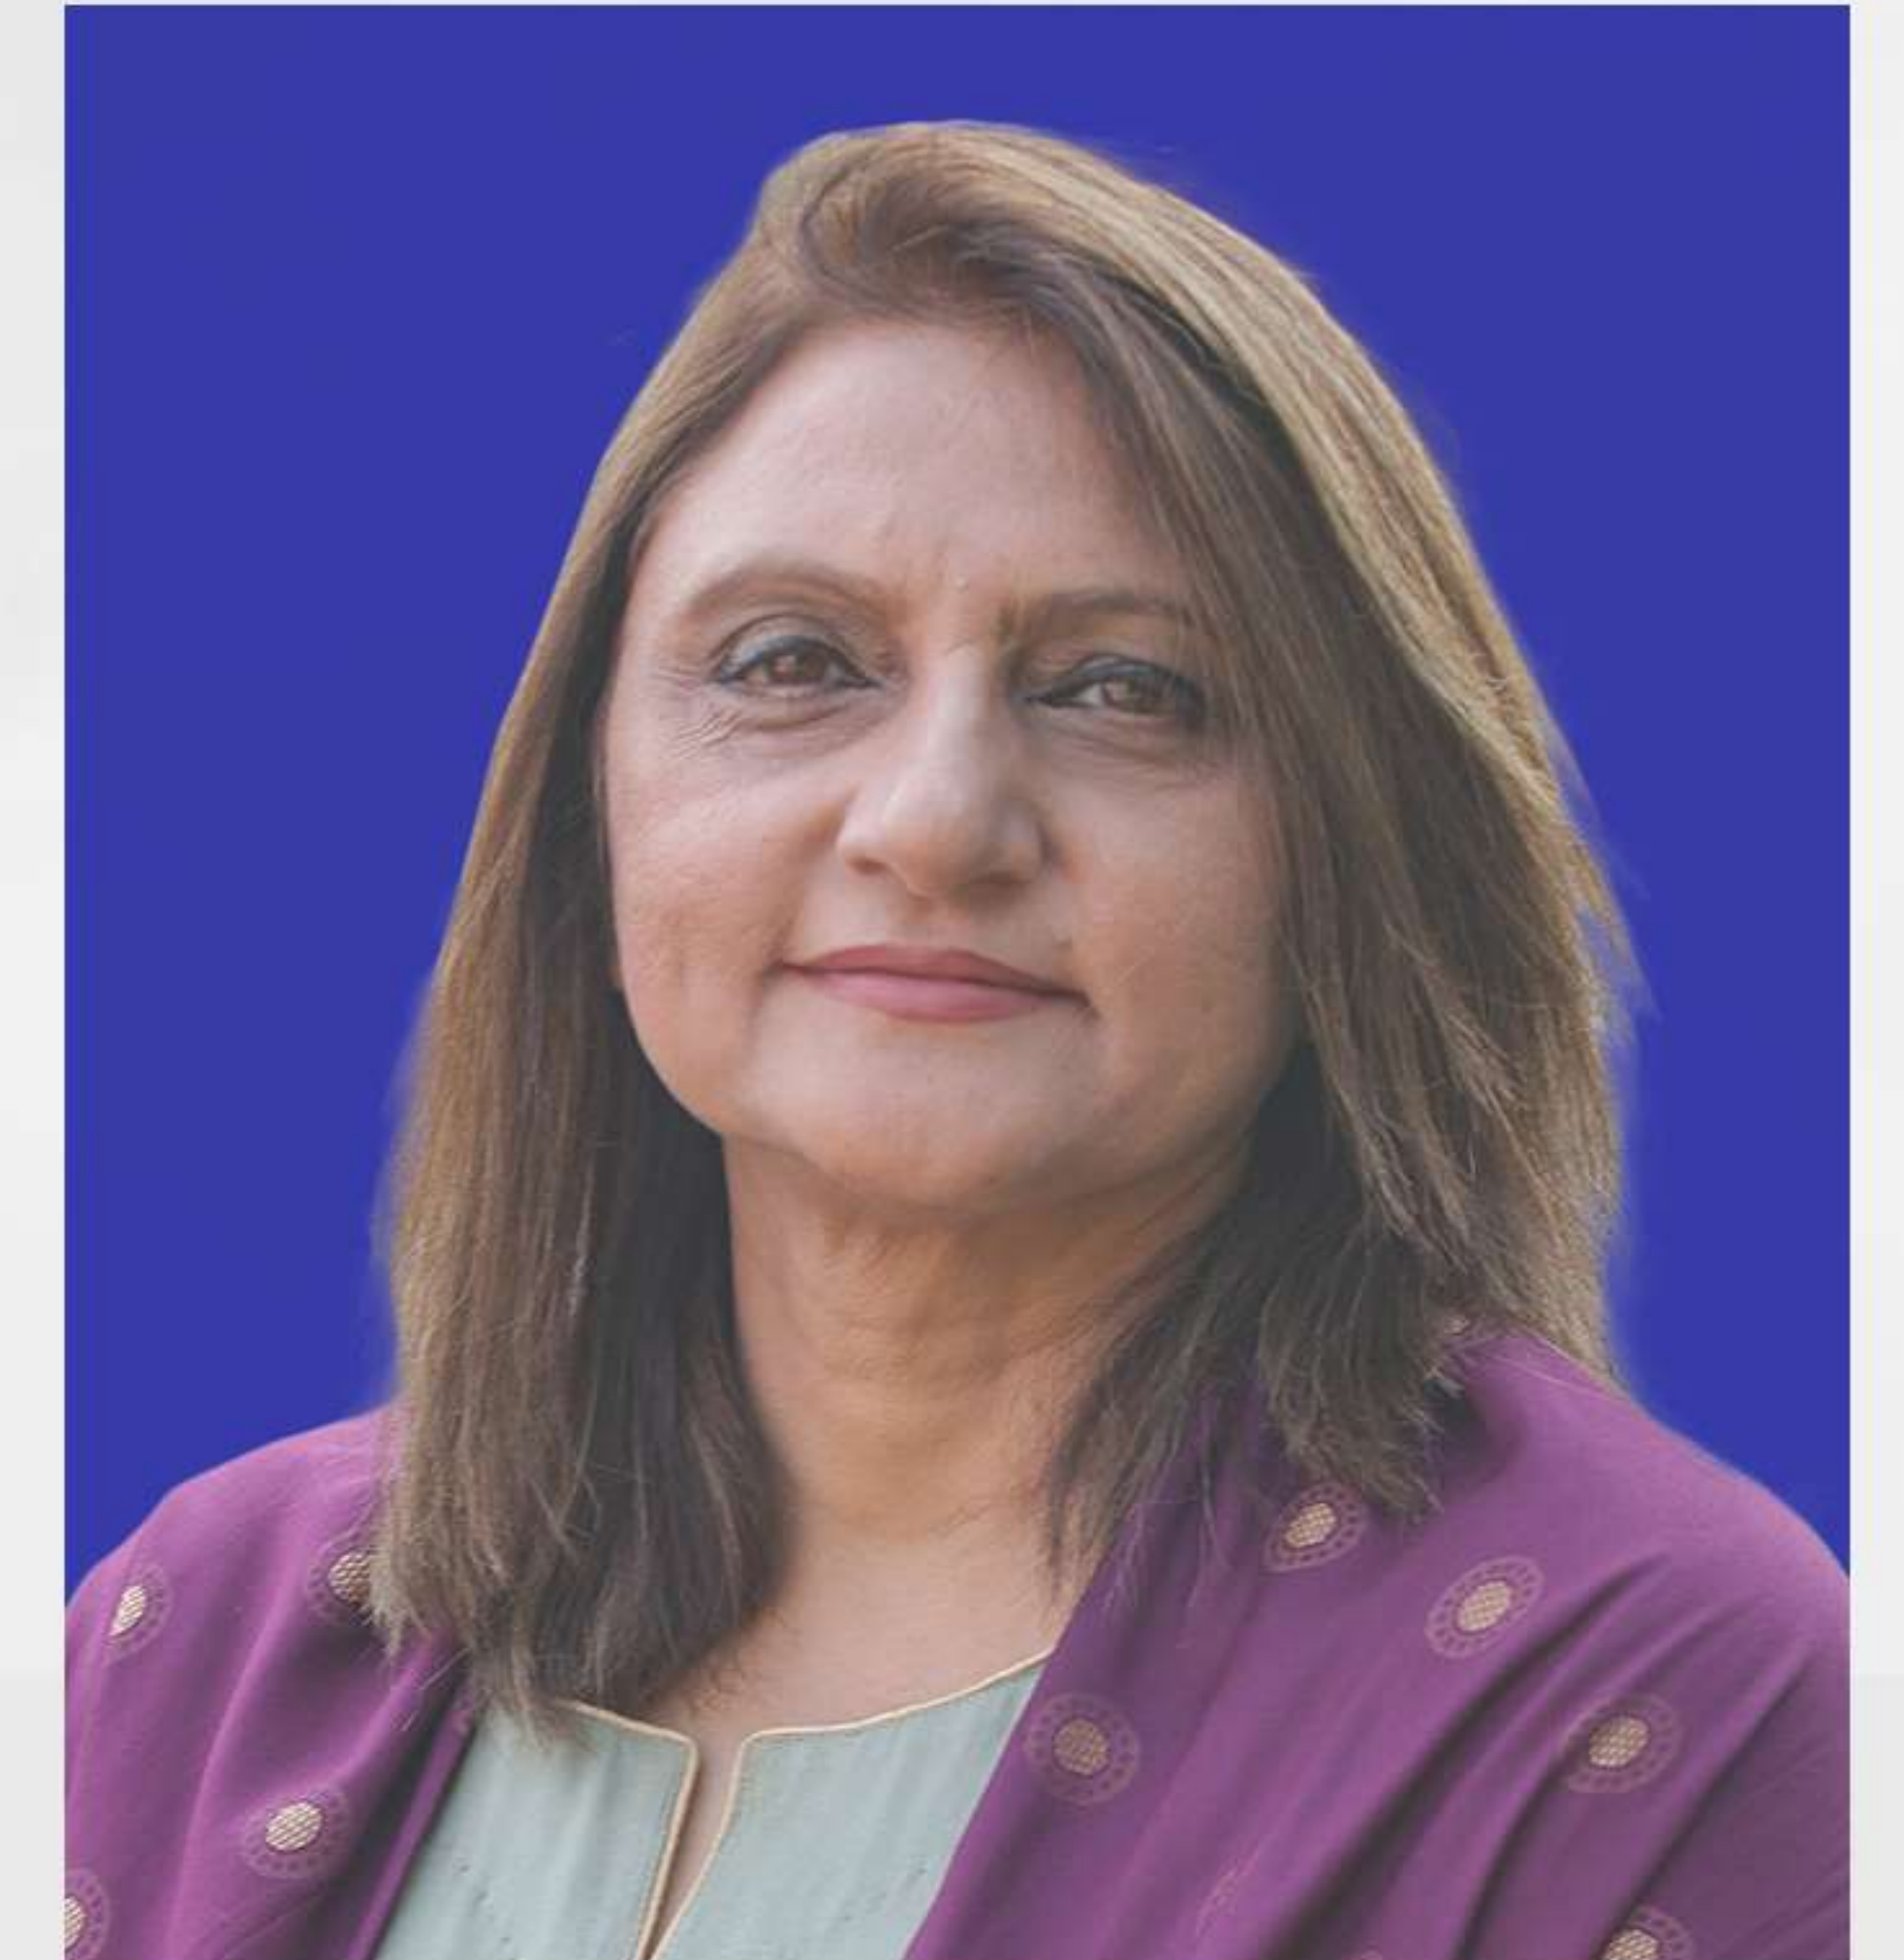

I must congratulate the Chairman of the Abdul Waheed Trust for the wonderful care he is giving to the students and patients. The attention to their growth, welfare and care is appreciated. Today even the most developed states are finding it very hard to meet the health care responsibilities of their population. Many of these countries have initiated very fundamental legislation and reforms to address the complex and costly issue of health services and yet no easy solutions are in sight. The situation in the developing and underdeveloped countries is even more alarming. These countries lack resources and are also threatened by lethal diseases. Pakistan is no exception and it should not surprise us to realize the people of Pakistan are vulnerable to a host of communicable and chronic ailments and that our resources are woefully insufficient. Thankfully, the government is alive to the issue and though sincere efforts are at hand, the dire situation requires the creative and compassionate participation of the private sector both on the hospital and the teaching side. However, the private sector should not be solely driven by the profit motive but should also consider the needs of the common man who is financially very distressed.

It gives me great pleasure to compliment Abdul Waheed Trust for setting up Avicenna Medical & Dental College in the private sector and earning a great name and fame in a short time period. The College complex and the equipment is state of the art, the faculty is highly qualified and the College enjoys an on-site hospital facility which is offering health care services to the population at minimal costs.

Well done Avicenna, keep it up!

LT. GEN. (RETD) RIZWAN A QURESHI

MESSAGE FROM THE CO-CHAIRPERSON OPERATIONS & PRINCIPAL (AMC)

As a Co-Founder and Co-Chairperson, I have been involved in planning, construction and accreditation of Avicenna Medical College by the Pakistan Medical and Dental Council (PM&DC) and its affiliation with the esteemed University of Health Sciences (UHS). It is a pleasure to see Avicenna Medical College develop, progress and achieve maximum academic excellence in a short period since its inception in 2009. The institution has lived up to its mission of training and producing medical graduates of international standards. Seven batches of Avicenna Medical College have passed out as Doctors, who currently are serving in the country and abroad while several have opted for post-graduation and are on road to progress. We have achieved several milestones since 2009 including the recognition of our College for FCPS training by College of Physicians and Surgeons of Pakistan (CPSP), establishment of College of Nursing and Avicenna Dental College. We look forward for continuous development and advancement of our institution in terms of new programmes, new methodologies of teaching and learning and innovation in health care strategies for our teaching hospitals.

I look forward to welcoming you on board to Avicenna Medical & Dental College

PROF. DR. GULFREEM WAHEED

MBBS, FCPS, MHPE

AVICENNA MEDICAL COLLEGE & HOSPITAL

MESSAGE FROM THE CO-CHAIRPERSON

ADMIN, LEGAL & FINANCE

It is my great privilege to write this foreword for the prospectus of Avicenna Medical & Dental College for the year 2022/2023 academic year. This prospectus is intended to help you understand why our college is a leader in the field of Medicine, Dental, Nursing, Allied Health Sciences and why our graduates are the most sought after in the entire country. Your professional experience will constitute many important decisions that will have a profound impact upon your entire life. Choosing a college/university for higher education is the first and the most important of these decisions; the direction of your life stems largely from where you studied and what you studied. I believe that your decision should not only be academic in merit, but should also involve choosing an institute that can polish your personality, inculcate in you discipline and ethics, and enable you to become more compassionate and contributing citizens of tomorrow. We believe in providing you with a well-rounded education, pushing you to not only test your academic limit but encouraging you to gain exposure through involvement in extracurricular activities and exertions.

*I await with pleasure to receive and assist you all on your journey to becoming
Medical and Dental Professionals.*

DR. SHANDANA SHEIKH
PHD (CARDIFF UNIVERSITY, UK)

MESSAGE FROM THE CO-CHAIRPERSON

DEVELOPMENT & COORDINATION

The administrative and professional team at Avicenna Medical & Dental College works to standards of perfection. The aim is not just to impact medical & dental education but more importantly to instil in the students a sense of responsibility, industry and discipline-the key ingredients that will equip Pakistan's future with the best medical professionals. As a professional with considerable experience in teaching and mentoring students in the Higher Education Sector, I am confident of the value of choosing Avicenna Medical & Dental College for medical & dental education experience which goes beyond mere knowledge acquisition.

We look forward to making you a part of the Avicenna Family

DR. FAZILDA NABEEL
PHD (SUSSEX UNIVERSITY, UK)

MESSAGE FROM THE DIRECTOR HOSPITAL SERVICES

AVICENNA HOSPITAL & AADIL HOSPITAL

Avicenna Medical & Dental College is backed by two teaching Hospitals i.e. Avicenna Hospital (on campus) and Aadil Hospital in DHA Lahore. The founding team for teaching hospitals are known for provision of healthcare services since 1987. The management team has invested heavily in resource training in order to deliver quality health services to the general public. It offers a blend of subsidized health services and charity medical and surgical facilities through its teaching hospitals. Over the years our nurses have professionally grown and attained leading roles in top hospitals of Pakistan and abroad. Our Medical Officers and specialists who were once part of our team have excelled in their respective careers. The secret for success for any upcoming health professional is to put the patient's interest before his own. The teaching hospitals provide a conducive environment and continues to sow the seeds of hard work, professionalism and ethical practice. We are proud of our students and professionals who are highly placed internationally. At Avicenna we groom our students to work hard, respect humanity and excel in their professional career. Our students have shown outstanding results both individually and as a class over the years. Parents feel safe and have complete confidence in our team and credibility of the institution. Through our pursuit of excellence to comply with health industry and regulatory standards, we are proud to announce that both teaching hospitals hold the following Accreditations: Recognized by Pakistan Medical Commission (PMC) as Teaching Hospitals Affiliated with the University of Health Sciences (UHS) as a Teaching Hospitals Notified as Teaching Hospitals by the Ministry of Health Pakistan Licensed by Punjab Healthcare Commission, Certified by TUV Austria for ISO 9001:2015 Quality Management System Licensed by Punjab Blood Transfusion Authority and DRAP.

DR. FAHDEL SHEIKH

1ST PAKISTANI TO RECEIVE PRESIDENTIAL AWARD

FOR QUALITY HEALTH SERVICES & PHILANTHROPY 2016

HONORARY CONSUL THE REPUBLIC OF THE PHILIPPINES (PUNJAB)

MESSAGE FROM THE PRINCIPAL

AVICENNA DENTAL COLLEGE

It is a matter of immense honor and privilege as the first Principal of Avicenna Dental College to welcome you to one of the finest dental institutes in the private sector of Pakistan.

Avicenna Dental College is a private institution, which aims to provide the finest dental education to a dental undergraduate student following the latest trends in Medical Education and to develop them to practice dentistry in the 21st century. While educating dental students to become professional, empathetic, and competent professionals, Avicenna Dental College endeavors to educate students in a supportive environment in which they provide dental care for a diverse populace. In the times to come, we wish to transform our graduates into sincere teachers, researchers, and consultants by starting post-graduation programs as well.

Avicenna Dental College aims to achieve an enterprising curriculum integrating the basic sciences with clinical experience while utilizing modern technological modalities. In addition to the production of outstanding oral health professionals, we at Avicenna Dental College recognize our responsibility as a private dental institution to the citizens of the country in making the provision of oral health care available to those who are deprived of ready access. I feel proud to lead this dental establishment at such an inspiring time and hope all of you at Avicenna Dental College will share this pride and play your respective roles in materializing the dream of making this institution the premier dental educator in Pakistan.

PROF. DR. SOHAIL ABBAS KHAN

BDS, MDS, Dip Op (Hons)

PRINCIPAL & HOD OPERATIVE DENTISTRY

AVICENNA DENTAL COLLEGE

OVERVIEW

Avicenna Dental College is a purpose-built, fully equipped Dental institution with experienced and excellence-driven faculty to train high-quality dental professionals in Pakistan. Avicenna Dental College runs under the umbrella of Abdul Waheed Trust. Abdul Waheed Trust is a non-profit social welfare organization and registered under the Societies Act with the Registrar of Societies. The Trust is legalized through a Trust Deed that bears necessary rectifications. The Trust Deed is further supported by its Memorandum and Article of Association that authorizes the establishment and operation of the Medical College, the Dental College, the Nursing College, the Allied Health Sciences College, and other activities in the healthcare sector. In 2018, Avicenna Dental College was recognized by the Pakistan Medical & Dental Council.

A WALK THROUGH OUR BDS PROGRAM

BDS is a 4+1 program wherein the first 4 years offers a blend of theoretical and clinical knowledge while the last year is a foundation year which provides an opportunity to the students to effectively and efficiently apply their knowledge and start their medical career under the supervision of senior consultants.

1
YEAR

- Anatomy

- Periodontology
- General Medicine

4
YEAR

- Orthodontics
- Prosthodontics
- Operative Dentistry
- Oral & Maxillofacial Surgery
- Paediatric Dentistry

DEPARTMENT OF BASIC SCIENCES

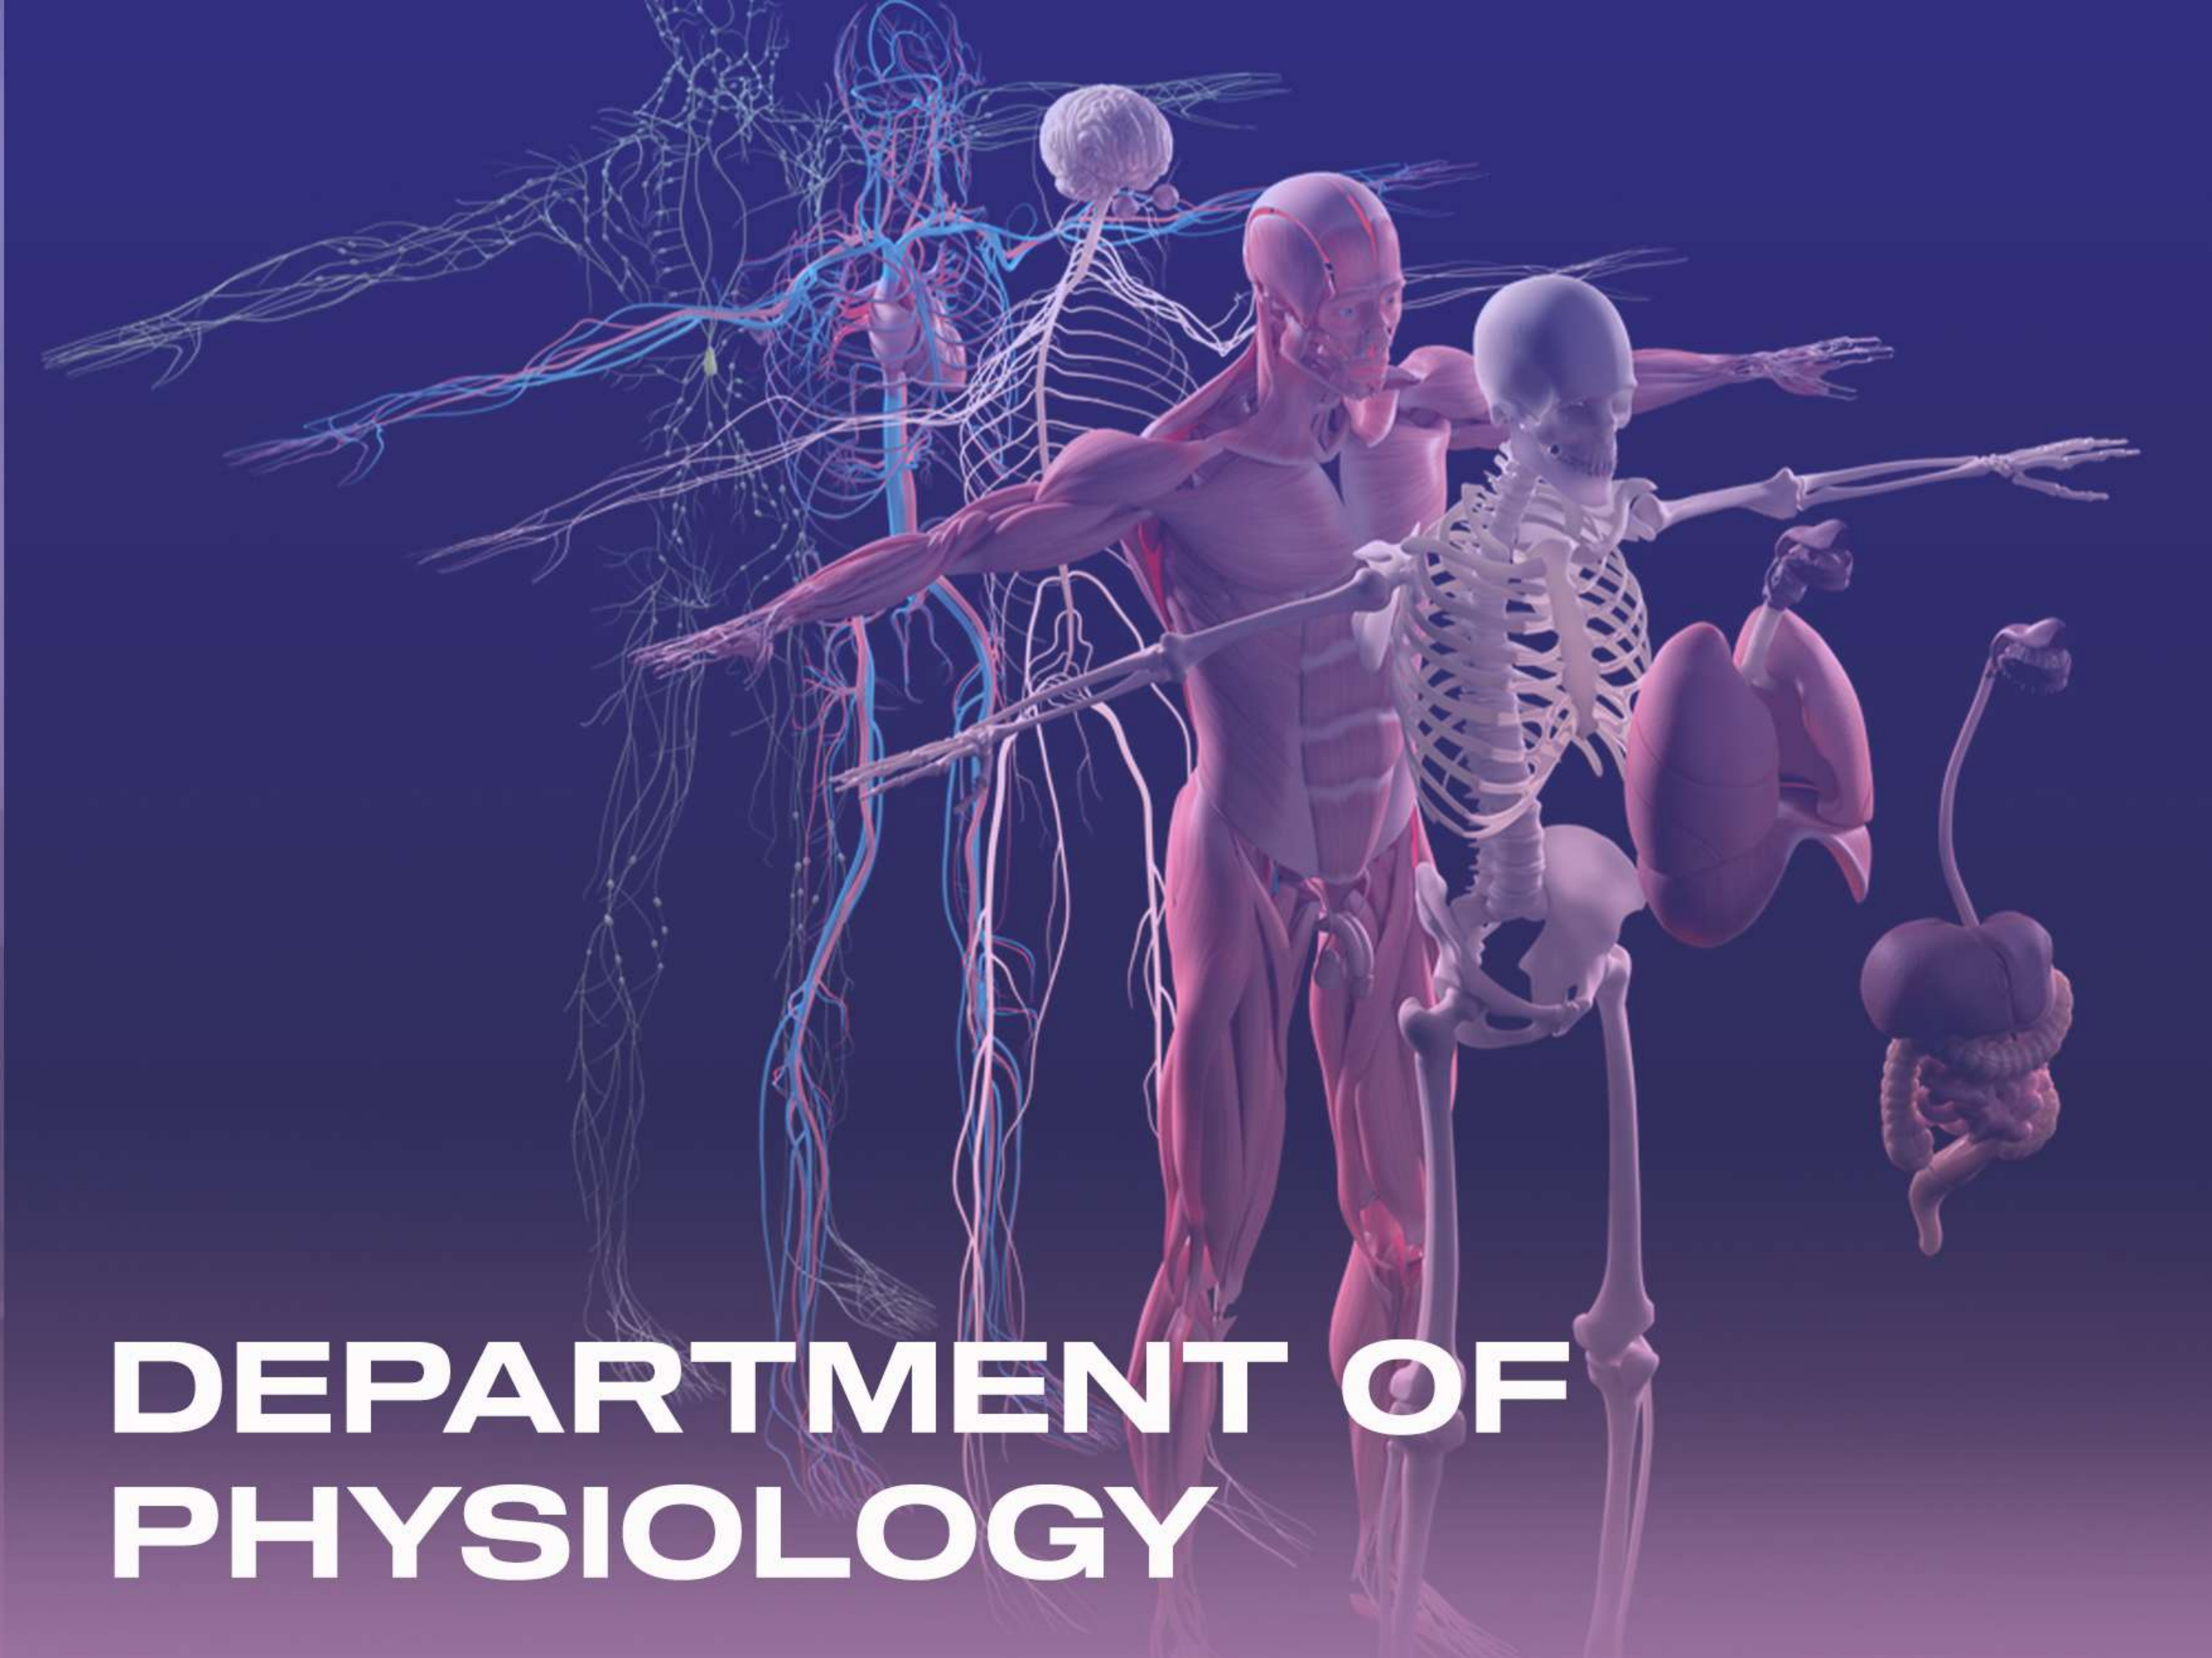

The undergraduate course of dentistry comprises four basic dental sciences subjects namely Oral Biology/Tooth Morphology, Preventive and Community Dentistry, Science of Dental Biomaterials and Oral Pathology. These subjects are taught over the first three years of the dental undergraduate curriculum. A sound understanding of these subjects provides the core knowledge on which the dental students build their clinical proficiency and correlate clinical scenarios to reach a definitive diagnosis of oral diseases.

A photograph showing several human skeletons displayed in glass cases within an anatomy museum. The skeletons are arranged in a row, with some showing internal organs and others showing the full skeletal structure. The lighting is soft, and the background is slightly blurred.

DEPARTMENT OF ANATOMY

The Anatomy curriculum has a balanced approach with a combination of dedicated lectures, dissection, and demonstration of cadavers, micro-study of individual organs and teacher-student interactions in the form of seminars and symposia. Lectures are made lively with the use of multimedia devices and students are divided into groups for better understanding and learning. Dissection Hall (2,400 sq ft) with adjoining mortuary for 12 bodies. Additionally, our Bone Bank, Anatomy Museum and separate Histology lab with slide preparation room to facilitate the dissemination of knowledge and enable our students to sharpen their anatomy concepts.

A 3D digital illustration of a human figure. The figure is shown from the front, with the skin removed to reveal the underlying muscles, bones, and internal organs. The color scheme is primarily red for muscles and organs, with blue and white for the skeletal structure. The figure is standing with arms slightly out to the sides.

DEPARTMENT OF PHYSIOLOGY

The Department of Physiology entails a huge physiology lab, which has the capacity to seat 60 students, although for effective demonstration and practice, they will be dealt in batches of 33-34 students. The first portion of the lab represents Cell physiology & body fluids portion, equipped with compound binocular microscopes & centrifuge machines. Next portion, representing blood physiology, is provided with Haemocytometers, Sahli's haemoglobinometer, ESR apparatus, teaching and projection microscopes. The lab also provides a distillation plant, hot air oven, physical balance & weighing machines. There are educational charts for theoretic reference. A cardiorespiratory portion is equipped with Spirometers, Stethographs, Peak expiratory flow meters, ECG Machines, sphygmomanometers & ergometers. The lab is also provided with equipment to test special senses like perimeter, vision charts, fundoscope & tuning forks etc. A couch is placed in the lab for the practice of clinical methods.

DEPARTMENT OF PHARMACOLOGY

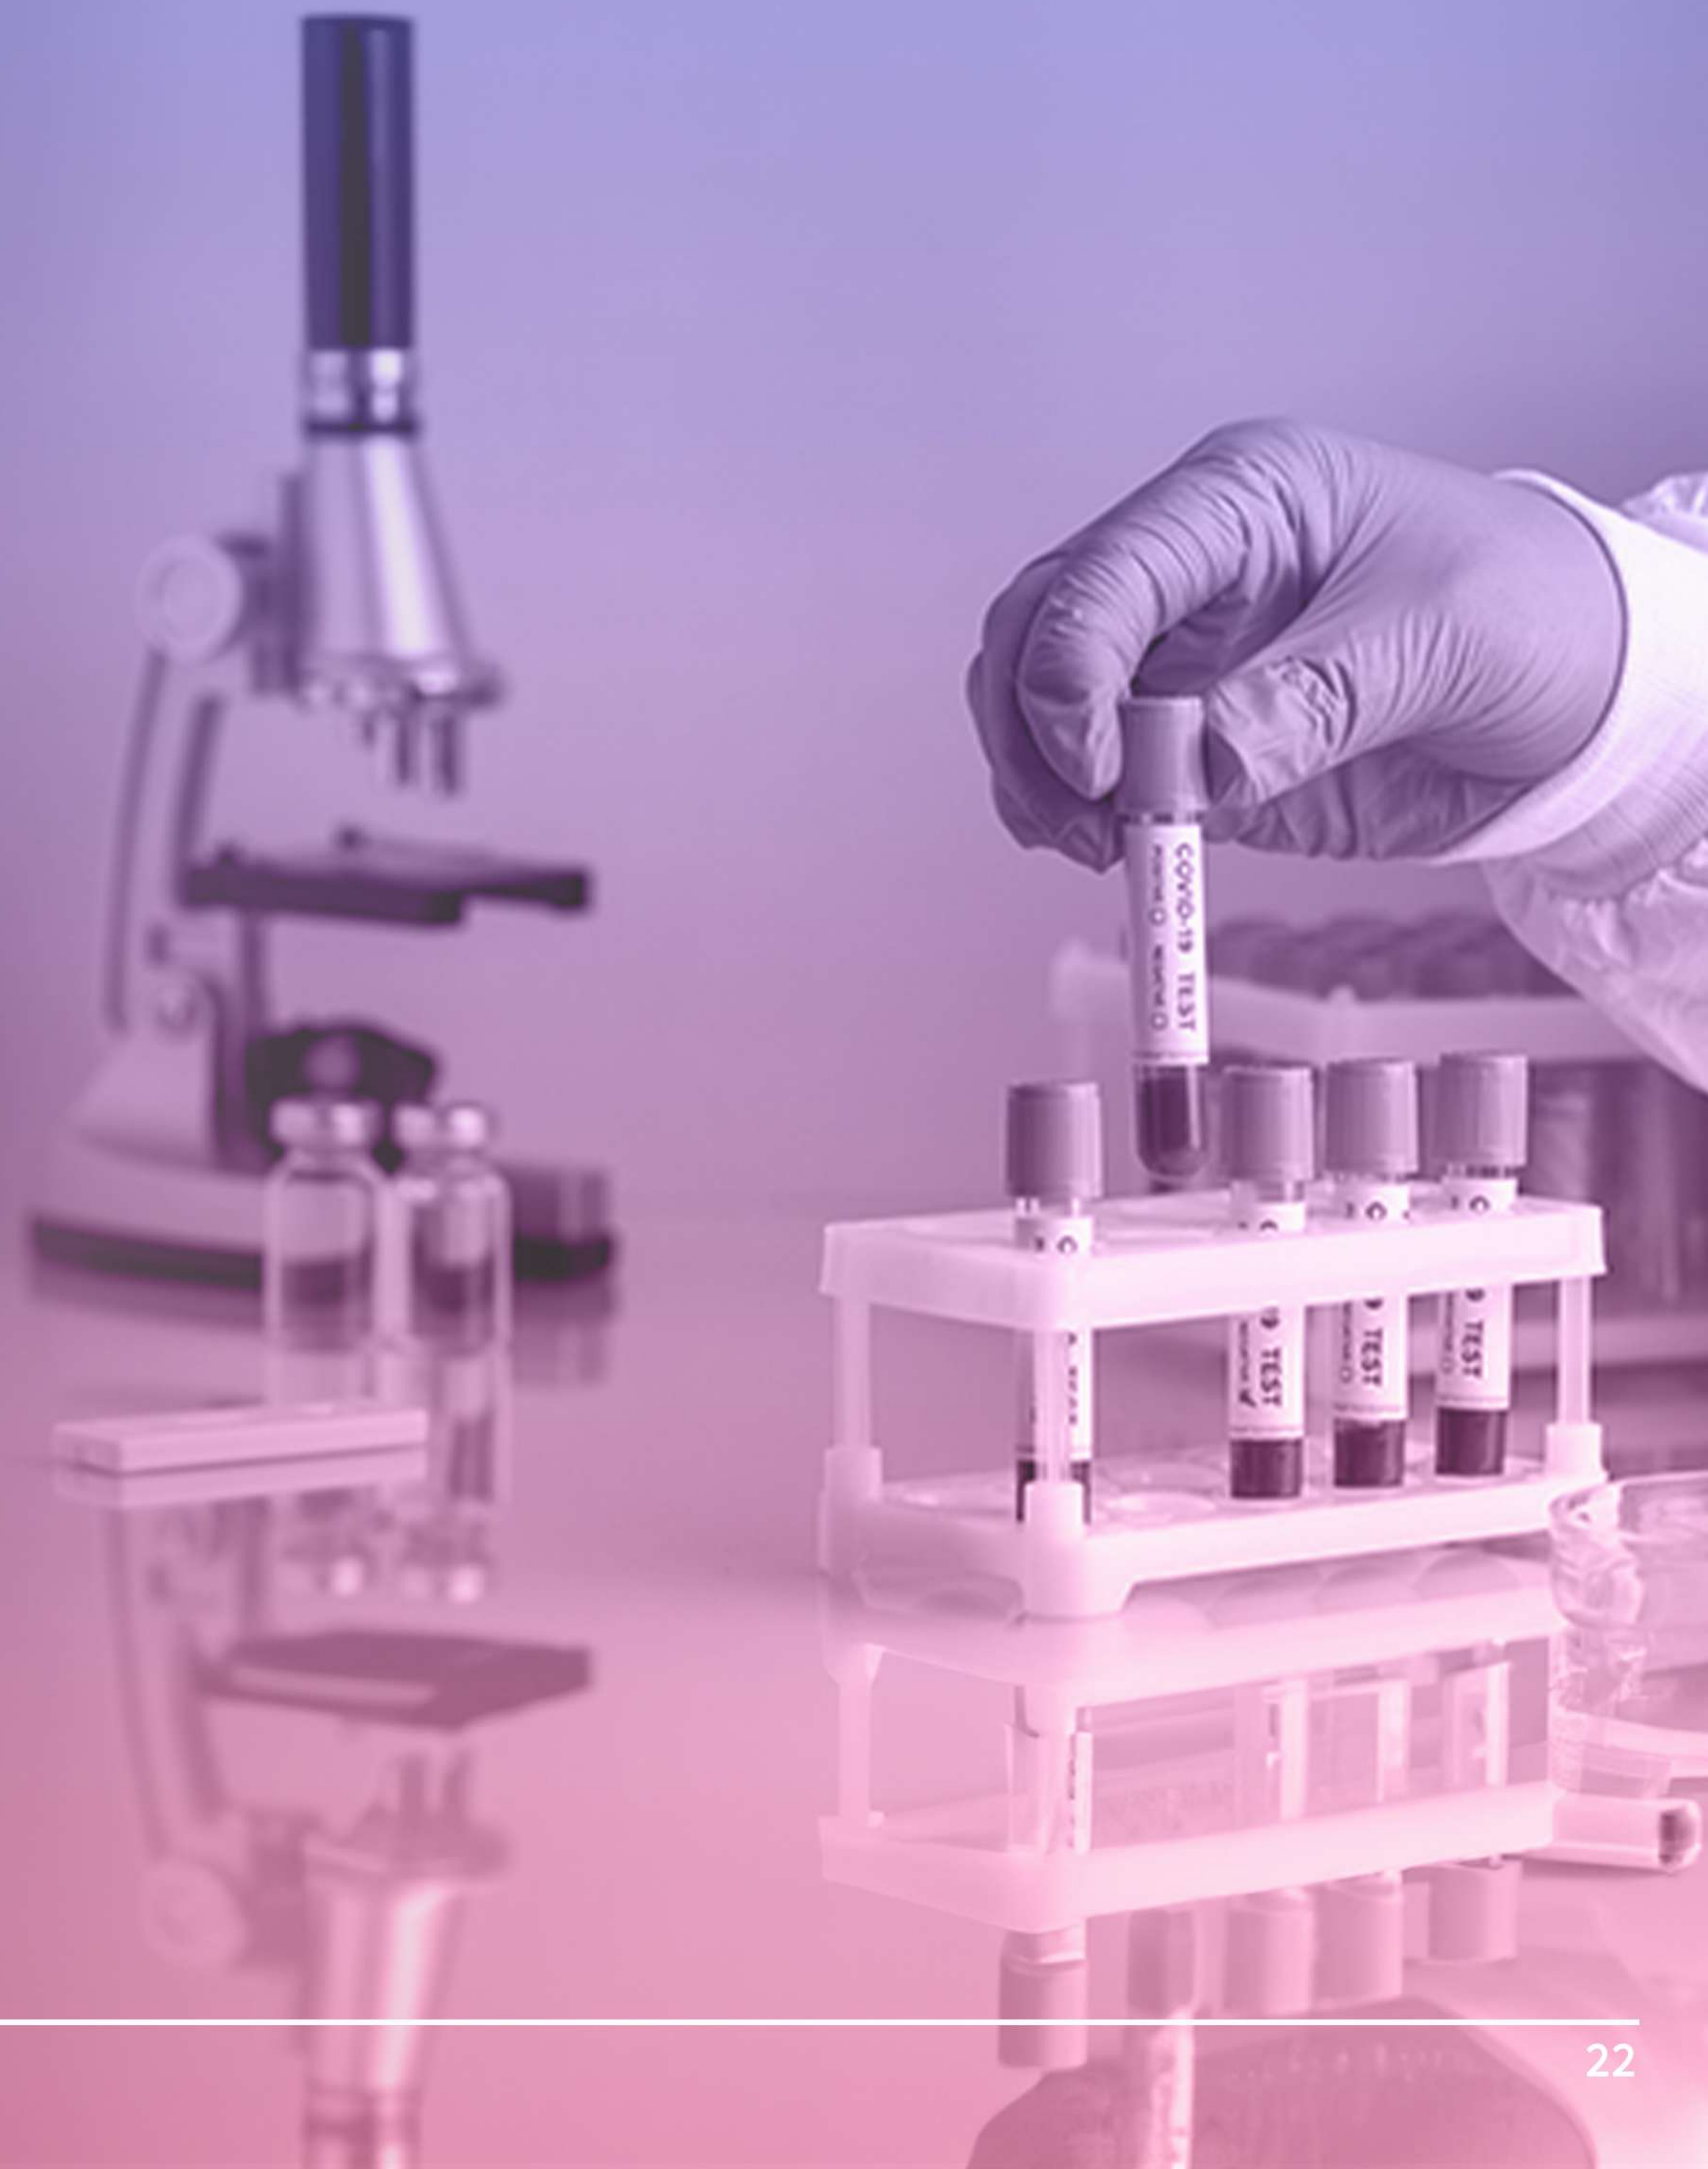

A good physician has to be a good pharmacologist. Students gain a thorough knowledge of medications, such as various routes of administration, mechanisms of action, pharmacokinetics, adverse drug reactions and dosage schedules. With qualified and experienced faculty guiding them, students can look forward to an interesting learning experience during their Pharmacology lectures and lab sessions. Pharmacology students have fully equipped laboratories that provide the resources for practical training in experimental pharmacology, clinical pharmacology and pharmacy.

DEPARTMENT OF BIOCHEMISTRY

The Biochemistry Department is fully equipped with state-of-the-art facilities including spectrophotometer, colorimeters, photometer analytical, electrophoresis, pH meters, centrifuge machine, electronic balances, microscopes, incubators, water bath, distillation unit, automated pipettes and dispensers. The clinical biochemistry laboratory (clinical lab) at Avicenna Medical College & Avicenna Hospital is also equipped to facilitate the learning of students. It has a clinical chemistry analyzer, hematology analyzer and blood gas analyzer. A maximum of 60 students can occupy the huge biochemistry lab at one time. The highlighted equipment is sufficient for qualitative & quantitative analysis of samples for undergraduates.

DEPARTMENT OF PATHOLOGY

Pathology is a branch of medicine that bridges the clinical and non-clinical subjects. Pathologists are called upon to diagnose and confirm many ailments. The department has 3 labs; a Histopathology and Hematology lab and clinic lab. The Clinical lab works in full coordination with the Avicenna Hospital. The labs are being supervised by professors, experienced in related specialities. The department has a well designed museum displaying neatly mounted specimens and several detailed and highly informative charts/graphs. Highly qualified professors with National and International experience are supervising the pathology labs.

DEPARTMENT OF DENTAL EDUCATION AVICENNA DENTAL COLLEGE

The Department of Dental Education is undoubtedly the backbone of a medical institution. At Avicenna Medical and Dental College its importance and efficiency increased many folds due to the keen interest, guidance and encouragement by the chairman and the Principal. Goal of DME is to make and implement concrete policies to impart medical education to the students in a modern and professional manner. DME aims to produce sound professional knowledge and skill. A fine balance is carefully maintained, as per the concerned authorities' guidelines, while deciding the number of lectures, practicals, tutorials and assessments. Annual academic planners, weekly timetables, formulation of test schedules and entry and preservation of test results are a few basic responsibilities that DME carries out. DME also plays the role of a coordinator between the students, faculty, principal and the chairman. Workshops on different aspects of medical education are conducted to upgrade the teaching and assessment methodology. Coordination with other medical education regulatory authorities also falls under the domain of DME. Faculty and students are kept updated on the curriculum of different subjects prescribed by the UHS. Also, it is ensured that students and faculty are well informed regarding the latest editions of all the recommended text and reference books and that these books are available in the college library. Faculty members and students are encouraged to carry out research.

DEPARTMENT OF COMMUNITY DENTISTRY

Community / Preventive Dentistry is a dynamic field of dentistry which provides knowledge to individuals or groups of people about dental health. Our department aims to produce dentists who can educate the masses about dental health practices, prevention of oral diseases and are able to inculcate knowledge among people on the prevention of dental diseases. The Department of Community dentistry also has a dedicated lab for research purposes which helps to enhance practical and research of our students.

DEPARTMENT OF ORAL PATHOLOGY

Oral Pathology bridges the gap between basic and clinical dentistry. The objective of our department is to provide firm and basic knowledge of pathological processes: their etiology, patho physiology, diagnostic modalities and to inculcate analytical & investigative skills in the dental students. The Department of Oral Pathology at Avicenna Dental College is equipped with all requirements laid down by the PM&DC to fulfill quality undergraduate education to dental students. The department endeavors to impart quality education regarding the soft and hard tissue pathologies in the head and neck region while stressing on the various etiological, clinical radiographic and histopathological features. Our aim is to equip the prospective dental clinicians with the core knowledge and understanding of pathological entities of the head and neck region.

The subject of Oral Pathology is currently being taught in the 3rd year of BDS curriculum under the auspices of University of Health Sciences, Lahore. Oral Pathology bridges the gap between basic and clinical dental sciences and deals with the diagnosis of a multitude of diseases that affect the oral and peri-oral region. It encompasses the causative factors, clinical features, radiological and laboratory investigations to arrive at a diagnosis which is arguably the single most vital step for the treatment of a disease. Our department endeavors to build a strong foundation of identification and diagnosis of oral diseases in our students. Subsequent to graduation, students can opt for postgraduation in the form of Masters degree and PhD to gain entry into the academic and research fields.

I wish our prospective students the best of luck.

DR. MOMIN MARATH

BDS, MCS
PROFESSOR

DEPARTMENT OF ORAL BIOLOGY

The aim of this department is to educate students in modern scientific approach to oral biology and oral disease. The mission of this department is to provide an encouraging environment to develop the intellectual capacity, critical thinking, creativity and problem-solving ability of its student to that they may become honorable, contributing and forward thinking members of the science and dentistry community to foster a conducive environment for scholarly and creative activities so that new knowledge or solutions to problems are discovered or created, and to provide education to all students in the college so that they may be equipped to succeed in the modern world.

The subject of Oral Biology & Tooth Morphology is a foundation course in dentistry which is taught during the first year of BDS. This subject provides the basic knowledge of Tooth Morphology, Oral Histology, Oral Anatomy, Oral Physiology and Oral Embryology. It includes the study of development, structure and function of the oral tissues, their morphological aspects, their interrelationships and their relation to other organ systems. The subject of Oral Biology & Tooth Morphology highlights the clinical aspects.

DR. RAHEELA YASMIN

M.PHIL, BDS

HOD ORAL BIOLOGY,
PROFESSOR

DEPARTMENT OF DENTAL MATERIALS

The Science of Dental Materials is a basic science subject taught in the second year BDS which deals with the physical, mechanical, chemical & biological properties of all materials used in conventional & modern dentistry. An understanding of properties and handling of materials is absolutely essential in both clinical and laboratory settings. It involves the study of composition, manipulative technique, application of dental materials and their interaction with the oral environment. The Department of Dental Materials aims to provide the students with the scientific background and the clinical skills required to handle modern dental materials. The department has a dedicated state of the art laboratory which enables the students to practice the manipulative techniques before their application in the clinical setup.

DEPARTMENT OF CLINICAL SCIENCES

Clinical sciences include all those subjects where students are required to interact and deal with actual dental patients namely Oral Medicine, Periodontology, Operative Dentistry, Pediatric Dentistry, Oral Surgery, Orthodontics and Prosthodontics. These are taught from 3rd year onwards during the undergraduate dental course. Students are trained in all the aspects of dental patients handling ranging from basic history taking, making a diagnosis to devising a treatment plan and record keeping. Students develop the psychomotor skills and attitude needed to treat dental patients.

DEPARTMENT OF ORAL MEDICINE

Oral Medicine has generally been defined as that discipline within dentistry which deals with the diagnosis and essentially non-surgical treatment of the diseases of oral cavity and the oral manifestations of systemic diseases. Oral radiology uses ionizing radiation in diagnosis and therapy. The subject of Oral Medicine & Radiology is taught during the 3rd year of BDS.

Our aim is to acquaint the students with the subject and teach how to, future clinicians, 35 independently make a case report, integration of the oral and systemic signs and symptoms, making a diagnosis using various Investigative procedures including radiotherapy and planning the individualized treatment for the patient.

DEPARTMENT OF PERIODONTOLOGY

Periodontology is the branch of dentistry that deals with the treatment of diseases of all supporting and investing structures of the teeth. This subject forms an integral part of dental training (and is though) in the 3rd year of the BO5 Programme.

We aim to train students to fully grasped the importance and basics of healthy Periodontium, as well as diagnose, plan and execute treatment for various periodontal diseases. Students are also taught about the international protocols for charting, classifying and diagnosing diseases as well.

Our department is committed to providing optimal non-surgical and surgical periodontal treatment, including Guided Tissue Regeneration (GTR) and Tissue Contouring. We are active and dedicated. clinical department for this purpose. Improving patient awareness regarding periodontal disease is a prime motto that the department undertakes.

DEPARTMENT OF ORAL & MAXILLOFACIAL SURGERY

Oral & Maxillofacial Surgery (OMFS) is a specialty of dentistry that focuses on problems in and around the mouth and head and neck region. It is a diverse and growing field which encompasses the art and science of diagnosis and surgical management of diseases or defects of the oral & maxillofacial region. Oral and Maxillofacial surgery can broadly be divided into Minor oral Surgery (MOS) and Major Oral & Maxillofacial Surgeries.

The Oral & Maxillofacial (OMFS) curriculum is designed to train the undergrad students to provide minor oral surgical procedures particularly exodontia, surgical removal of wisdom teeth, canine exposure and replacing missing teeth with dental implants in the practice of general dentistry.

In addition the student should be able to diagnose different pathologies ranging from developmental abnormalities like cleft lip and palate, benign cystic lesions to malignant tumors affecting the oral and maxillofacial region.

Oral & Maxillofacial Surgery also deals with facial trauma injuries, Temporomandibular Joint surgeries (TMJ) and also surgically aligning the jaw discrepancies (orthognathic surgery) in addition to facial cosmetic procedures including botox and other injectable cosmetics. The curriculum is also designed to develop an instinct in the students to become a lifelong learner, to take an active part in Continuing Dental Education and adopt this specialty as a career.

DEPARTMENT OF OPERATIVE DENTISTRY

The Department of Operative Dentistry of Avicenna Medical and Dental College is one of the largest departments of faculty of Dentistry. It provides an important role in the College of Dentistry establishing the foundational concepts of dentistry to the predoctoral dental students in caries diagnosis, prevention, repair and restorative techniques. The primary focus of the Department of Operative Dentistry to provide the knowledge, technical skills, critical thinking and judgment for the diagnosis, prevention, and management of dental caries, non-carious dental defects (attrition, abrasion, erosion, abfraction, developmental abnormalities, discoloration, and trauma), and elective esthetic smile enhancements. The department is responsible for four clinics namely restorative, endodontic, crown and bridge and pedodontics. The department also carries out the preclinical training/lectures of 2nd year BDS in restorative dentistry and clinical training/lectures of 3rd year BDS and final year BDS in operative dentistry. All full-time faculty in the Department of Operative Dentistry have advanced training in Operative Dentistry faculty and are recognized for their teaching, research and clinical expertise. In addition, there are excellent clinical facilities for the development of clinical techniques and for clinical research. We also have a Phantom Head Lab for preclinical restorative techniques. These laboratories and clinical areas are routinely used by the faculty and the graduate students as well as by a selected number of pre-doctoral students.

DEPARTMENT OF ORAL & PROSTHODONTICS

The field of Prosthodontics is concerned with the restoration of comfort, function and esthetics of our patients. It is the art and science of dentistry that concerns the rehabilitation of patients ranging from the loss of a single tooth to the replacement of complex maxillofacial structures. Students at Avicenna Dental College get an opportunity to learn from current and innovative teaching and develop up-to-date skills, knowledge and expertise in this specialty.

Prosthodontics is an intensive academic, clinical and research programme which encompasses removable, maxillofacial prosthodontics and implant dentistry, taught & practiced by students in a span of three years from 2nd to final year of BDS course. We train students to attain special knowledge and skills for proficiency in the theoretical & clinical aspects of prosthodontics. The aim of department is to see our students as emerging future leaders in the field. The program strives to achieve our goal through the implementation of new advanced and supervised clinical practices and technologies. Our students get a chance to practice prosthodontic techniques & manage patients directly under the supervision of highly skilled, professional and dedicated faculty members.

DR. USMAN MUNEER

BDS, FCPS

VICE PRINCIPAL
PROFESSOR BDS, FCPS

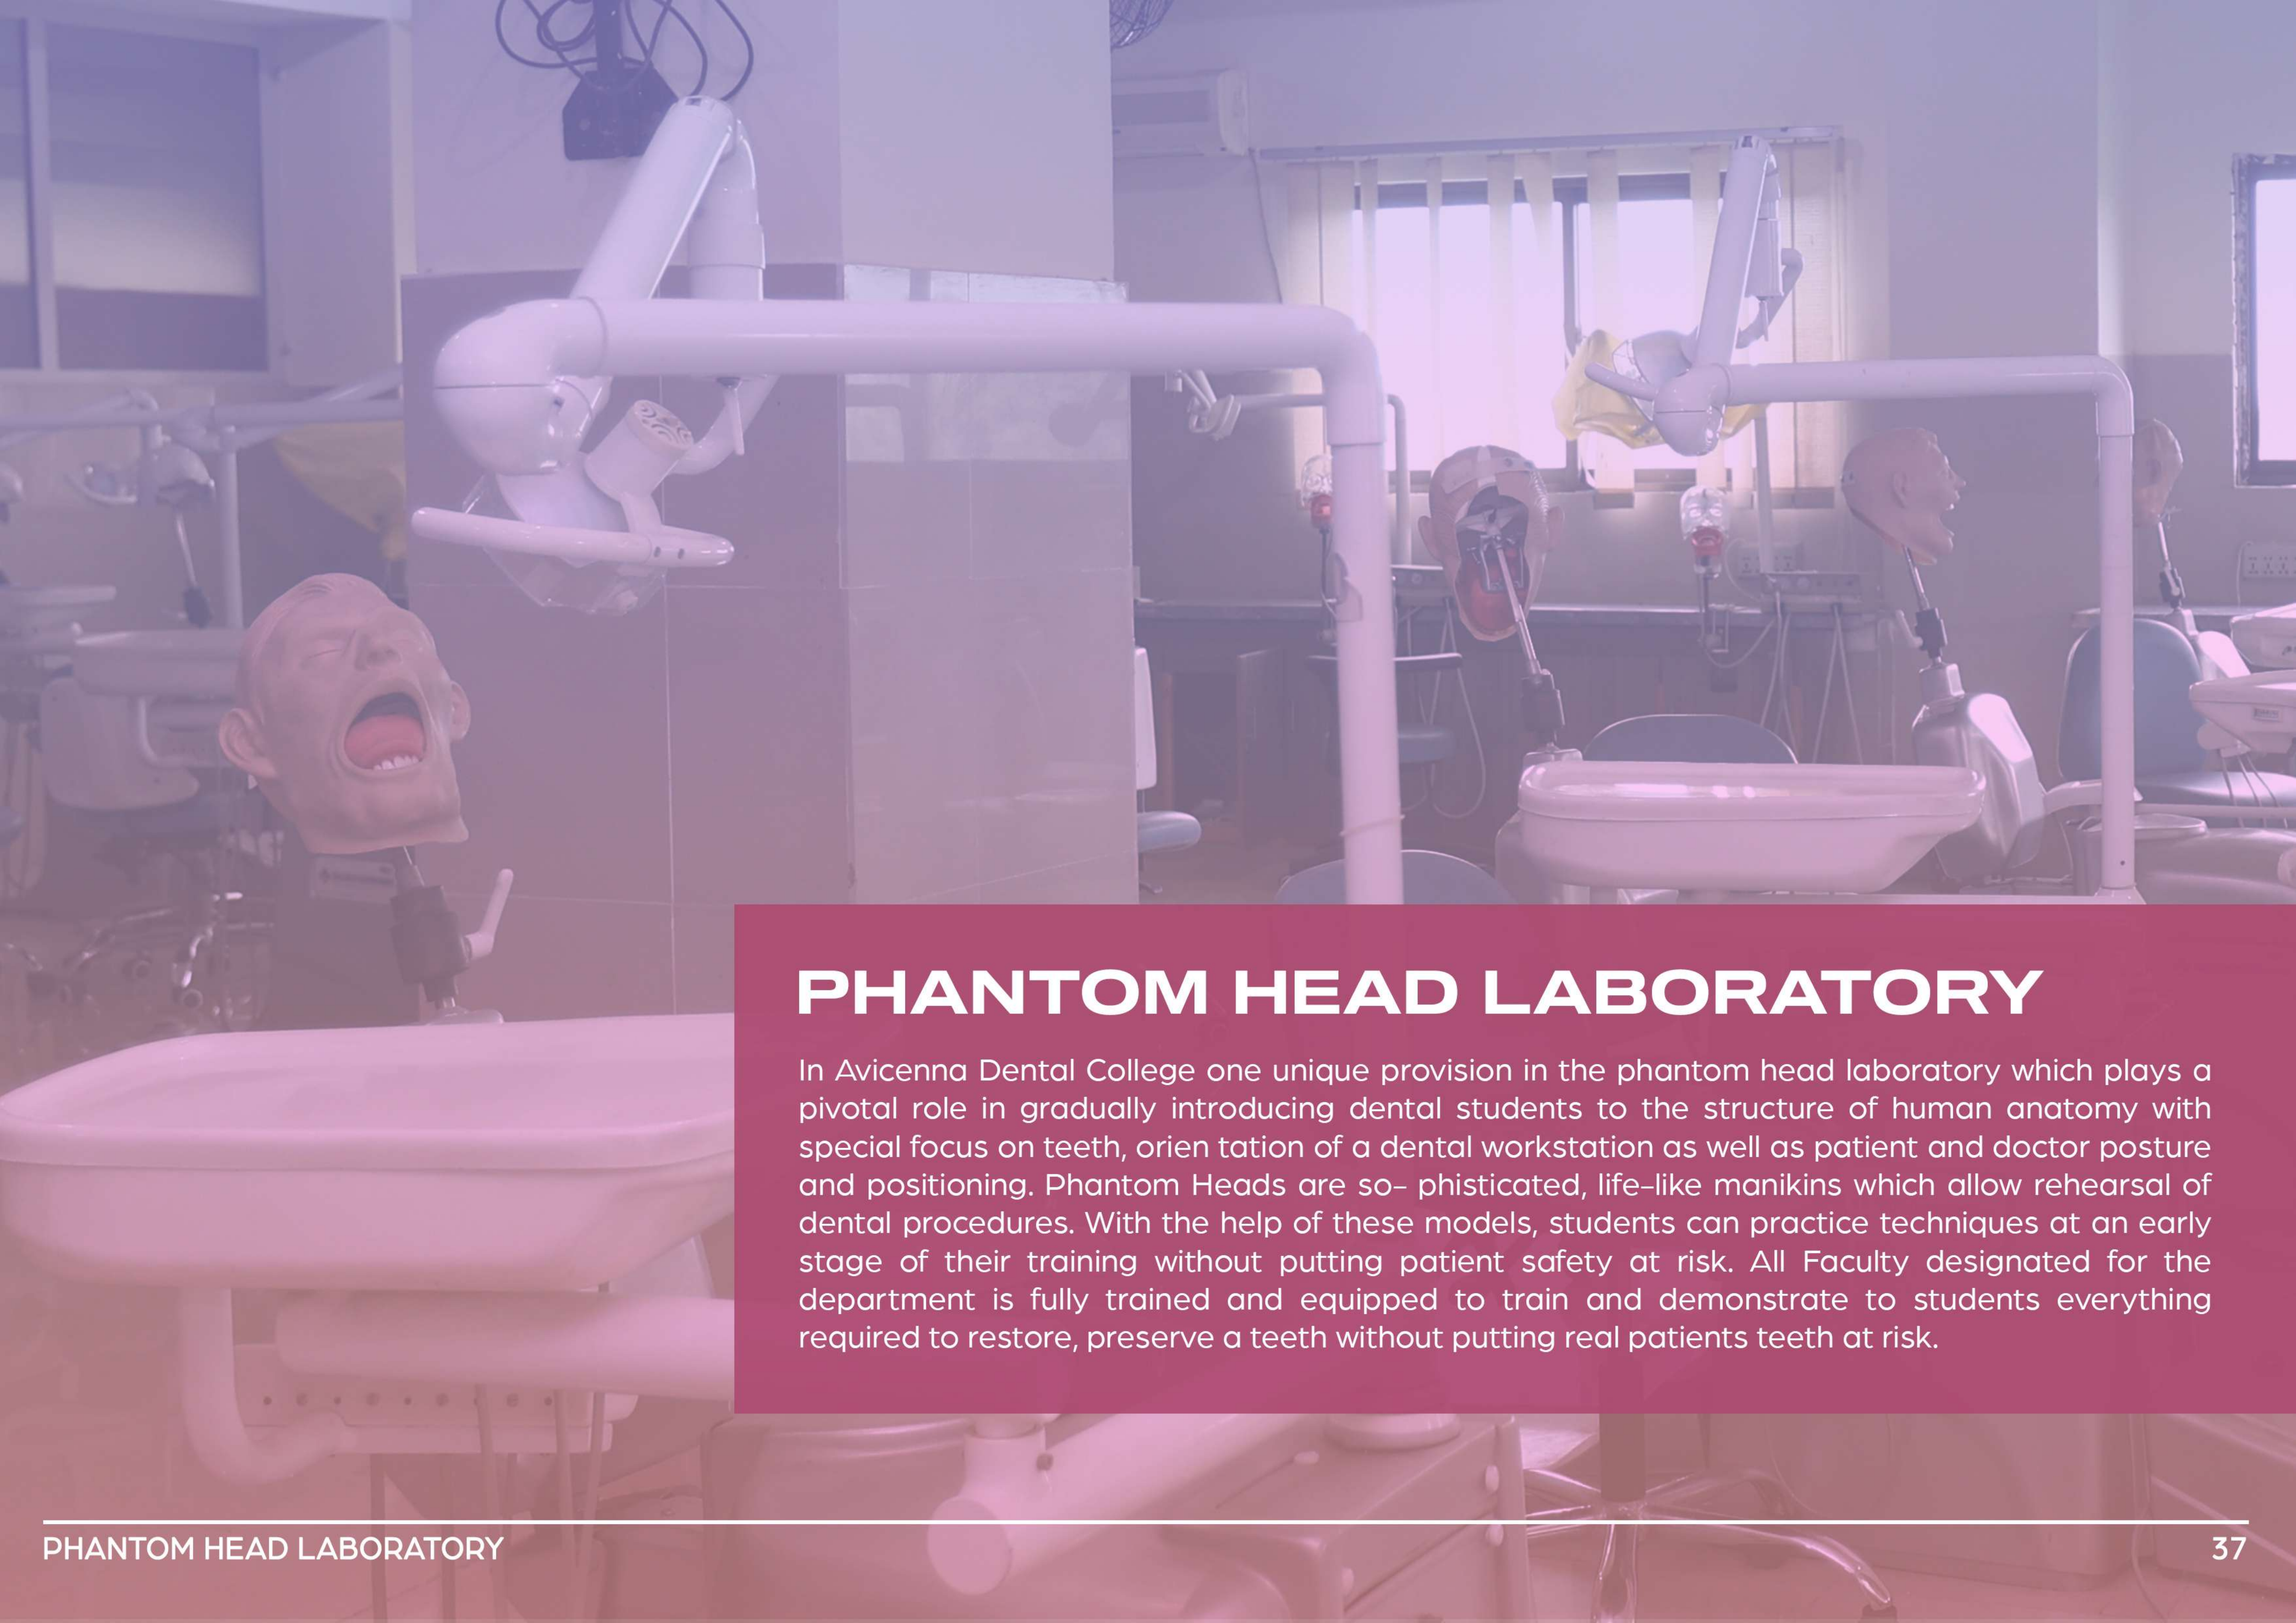

DEPARTMENT OF ORTHODONTICS

Orthodontics is a newly emerging dynamic field that is finding its due importance in the emerging cosmetic awareness among the masses. Orthodontics is a dental specialty that is taught to the students of final year. Orthodontics deals with diagnosis, interception and treatment of various kinds of dental malocclusions and facial deformities. Department of orthodontics is a state of art department, which is fully equipped with all modern gadgets and armamentarium. We aim at providing excellent patient care, research and educational facilities. It is a major examinable subject of final year.

In terms of class room teaching, our goal is to provide an in-depth education on growth of face, development of dentition and occlusion, diagnosis, interception and treatment of orthodontic anomalies along with biological and biomechanical principles related to orthodontics aiming at developing and delivering an orthodontic teaching facility that help students to adapt themselves to current challenges of becoming good clinicians and academicians.

We have a fully functional orthodontic laboratory, which provides us with all sort of technical support. We have a proper functioning cephalometric room that can cater up to 16 students. Our team of well-trained doctors and technical staff strive to provide unparalleled orthodontic treatment to our patients and unsurpassed education to our orthodontic students.

The background image shows a dental laboratory. Several dental chairs are visible, each equipped with a large, adjustable dental light arm. Mounted on the chairs are several 'phantom heads'—realistic human head models used for dental training. One phantom head in the foreground is shown with its mouth open, revealing a set of teeth. The room has large windows with vertical blinds, and the overall lighting is bright and clinical.

PHANTOM HEAD LABORATORY

In Avicenna Dental College one unique provision in the phantom head laboratory which plays a pivotal role in gradually introducing dental students to the structure of human anatomy with special focus on teeth, orientation of a dental workstation as well as patient and doctor posture and positioning. Phantom Heads are so- phisticated, life-like manikins which allow rehearsal of dental procedures. With the help of these models, students can practice techniques at an early stage of their training without putting patient safety at risk. All Faculty designated for the department is fully trained and equipped to train and demonstrate to students everything required to restore, preserve a teeth without putting real patients teeth at risk.

CAMPUS FACILITIES

The campus along with its 520 bedded hospital and accommodation facilities for students is situated in the heart of Bedian Road, DHA, Phase IX, covering a total area of 18 acres. Avicenna Medical and Dental College and Avicenna Hospital offer quality education to students and state of art facilities, all under one roof. Students get an opportunity to learn from leading medical academics while also enjoying on campus life including participation in extra-curricular activities, regular excursions and trips, and learning by being part of a diverse student cohort.

- **LECTURE THEATERS**
- **MESS & CAFE**
- **SPORTS FACILITIES**
- **AUDITORIUM**
- **ACCOMODATION**
- **LIBRARY**

LECTURE THEATERS

A total of six lecture theatres are available. Five lecture theatres with 150 seats for full class lectures and including two examination halls with 110 seats each. The College entails two large Examination halls and two OSPE halls (capacity of 26 students) for the smooth conduct of class tests and exams. Each lecture theatre is provided with 2 white boards (one on either side), its own multimedia, and overhead projector, flat screen computer with one hour backup (UPS), generator & internet connection. A sufficient number of air-conditioners & fans are installed in lecture/tutorial halls. The college has twenty tutorial rooms each designed for small group discussion & PBL Classes.

SPORTS FACILITIES & GYMNASIUM

We recognize sports as a pivotal key to shape and maintain students' personality and good health. The College has indoor and outdoor sports facilities to help enhance the cognition and capacity to learn. There is a proper sports section for various games like basketball, football, volleyball, and cricket. The gym itself is fully equipped with modern machinery both for students and faculty.

LIBRARY

The library at AMCH has a seating capacity to accommodate 250 students at one time. Additionally, it offers separate, quiet study places for boys and girls, internet access is available round the clock to all students to assist them in their study. Books and Medical Journals of various subjects are also available to students. The library has an E-Library section with state of the art facilities and a digital library. Departmental Libraries are separate to this with each respective department having their mini library to give the students an opportunity to learn during their features.

DIGITAL LIBRARY

The digital library of Avicenna Medical and Dental College aims to facilitate students in understanding the diverse specialties of medicine and dentistry by providing them access to comprehensive video lectures, journal articles, test banks and E-books. Students can access the digital library at any time and benefit from the content available on the digital library. The aim of the website is to complement the teachings of the classroom and to enable students to understand technical concepts at any time.

AUDITORIUM

The Auditorium has a capacity of 800 seats and is fully equipped with audio and visual facilities. It is designed to hold convocation ceremonies, stage plays and can also be utilized as a cinema for the entertainment of students.

ACCOMMODATION

Hostel facility is available on Campus for Girls and Boys. Both the hostels are totally segregated and separate with no connection at all. The girls hostel currently has a capacity of 300 students. The Boys Hostel has a capacity of 120 students. The hostels consist of a twin sharing room, three sharing rooms all with attached bathrooms. The hostel has its own dining room, TV Lounge, students Kitchen, guest room and the worden's room, Ayas are available round the clock to serve the students. Washing and ironing facility is available for a small payment. Both the hostels have dedicated electric and water supply Back-up generators supply electricity during Load Shedding Students are allowed to have a small sized refrigerator and an air cooler at extra charge of electricity expense which is monitored through individual room meters.

MESS & CAFE

The College has its own on-campus Mess which caters to 600 students. Students form the Mess committee which decides the mess menu in consultation with other students. The Mess offers fresh food to all residents three times a day. However, day scholars are also welcome to use the Mess facility at a reasonable cost. All food items including dairy, meat, and vegetables are sourced organically and bought in at the time of cooking, in order to ensure that students get freshly cooked meals at all times. Once a week on Sundays, students are also given a special breakfast with live halwa purl; a perfect way to enjoy the weekend. Two 50- inch LCD screens provide students an opportunity to get entertained during their meal times.

PEOPLE WHO MAKE IT HAPPEN

AVICENNA DENTAL COLLEGE

ADMISSION GUIDELINES

BDS SESSION 2024-25

ADMISSION POLICY

BDS SESSION 2024 / 25

AVICENNA MEDICAL & DENTAL COLLEGE

GENERAL

1. Admissions in MBBS and BDS at Avicenna Medical & Dental College are governed by **PMC Medical and Dental Undergraduate Education (Admission, Curriculum and Conduct) Regulations 2021** notified 04th June, 2021 amended 14th May, 2022.

ELIGIBILITY CRITERIA

2. Applicants should have at least 65% marks in FSc / A-Levels or equivalent qualification and at least 65% marks in MDCAT 2022 or 65% equivalence in MDCAT2021 (55% for BDS as per policy decision on 27th June 2022).

MERIT CRITERIA

3. The calculation of merit for MBBS and BDS candidates shall be formulated with following components each carrying separate weightages as follows:

- a. Matric / O-Levels 10%
- b. FSc / A-Levels (Electives) 20%
- c. MDCAT 20%

WHEN TO APPLY

4. Admissions are open from 01 July, 2022 for MBBS and BDS. The candidates can apply online on our website **www.avicennamch.com**. The application portal for admissions shall be closed on 31st December, 2022 for MBBS and on 31st January, 2023 for BDS. There shall be no interviews / tests after the closure dates.

DISPLAY OF MERIT LISTS

5. The merit list for MBBS shall be displayed on 31st December, 2022 and for BDS the merit list shall be displayed on 31st January, 2023.

OFFER AND SUBMISSION OF FEES

6. The candidates in the merit lists shall be offered admissions in the order of merit. The candidates shall be informed for offer of admissions through SMS and Emails. The candidates shall have 03 days for deposit of fees. If the candidate has not deposited fees within the due date, the offer shall not stand valid and next candidate shall be offered admission in the order of merit. All candidates are required to submit their fees in full on admission. These fees are for the period of January to December (Session) and the candidates shall receive the challan for the next years fee as per college rules and all fees will have to be paid before the beginning of the next session.

7. Only those students will get the admission who have not taken admission in any other college or who have withdrawn their admission from the previous college. The onus to prove that the student has not taken admission elsewhere lies on the student as “Failure by a student to cancel the prior acceptance of admission shall render all admission offers of the student as void and the student shall be ineligible for admission”.

(Authority: PMC Notification No. F4.Sec.PMC-2021 / Multiple Admissions / 317 dated 16th May, 2022).

8. A student when accepting admission is required to mandatorily disclose to the college (if a prior admission has been accepted by them to any other college, and such student shall prior to accepting latter admission must in writing inform the prior college of cancellation of their acceptance with a copy to the designated email to the Authority.

SUBMISSION OF DOCUMENTS

9. At the time of admission. The candidate shall be asked to submit the original results / certificates of Matric/ O-Levels, FSc / A-Levels and Domicile. 03 sets of copies of following documents shall be required:

- a. 08 Photographs
- b. CNIC (student and parent/guardian)
- c. Passport / Visa (Foreign Students Only)
- d. Domicile
- e. MDCAT Result
- f. Matric / O-Level Result / Certificate
- g. FSc / A-Levels Result / Certificate
- h. Migration Certificate for Board (for shifting to University of Health Sciences if HSSC qualification is not from Punjab.

10. The original documents shall be returned after the registration by PMC / UHS after admission or on refund / cancellation of admission. Candidates with FSc from outside Punjab shall provide their original migration certificate from their Intermediate Board for onward submission to the University of Health Sciences.

Refund after 1st April, 2023 till 30th June, 2023	6 months fee Plus 10% of total annual fee as penalty
After 30th June, 2023	No refund

LAHORE

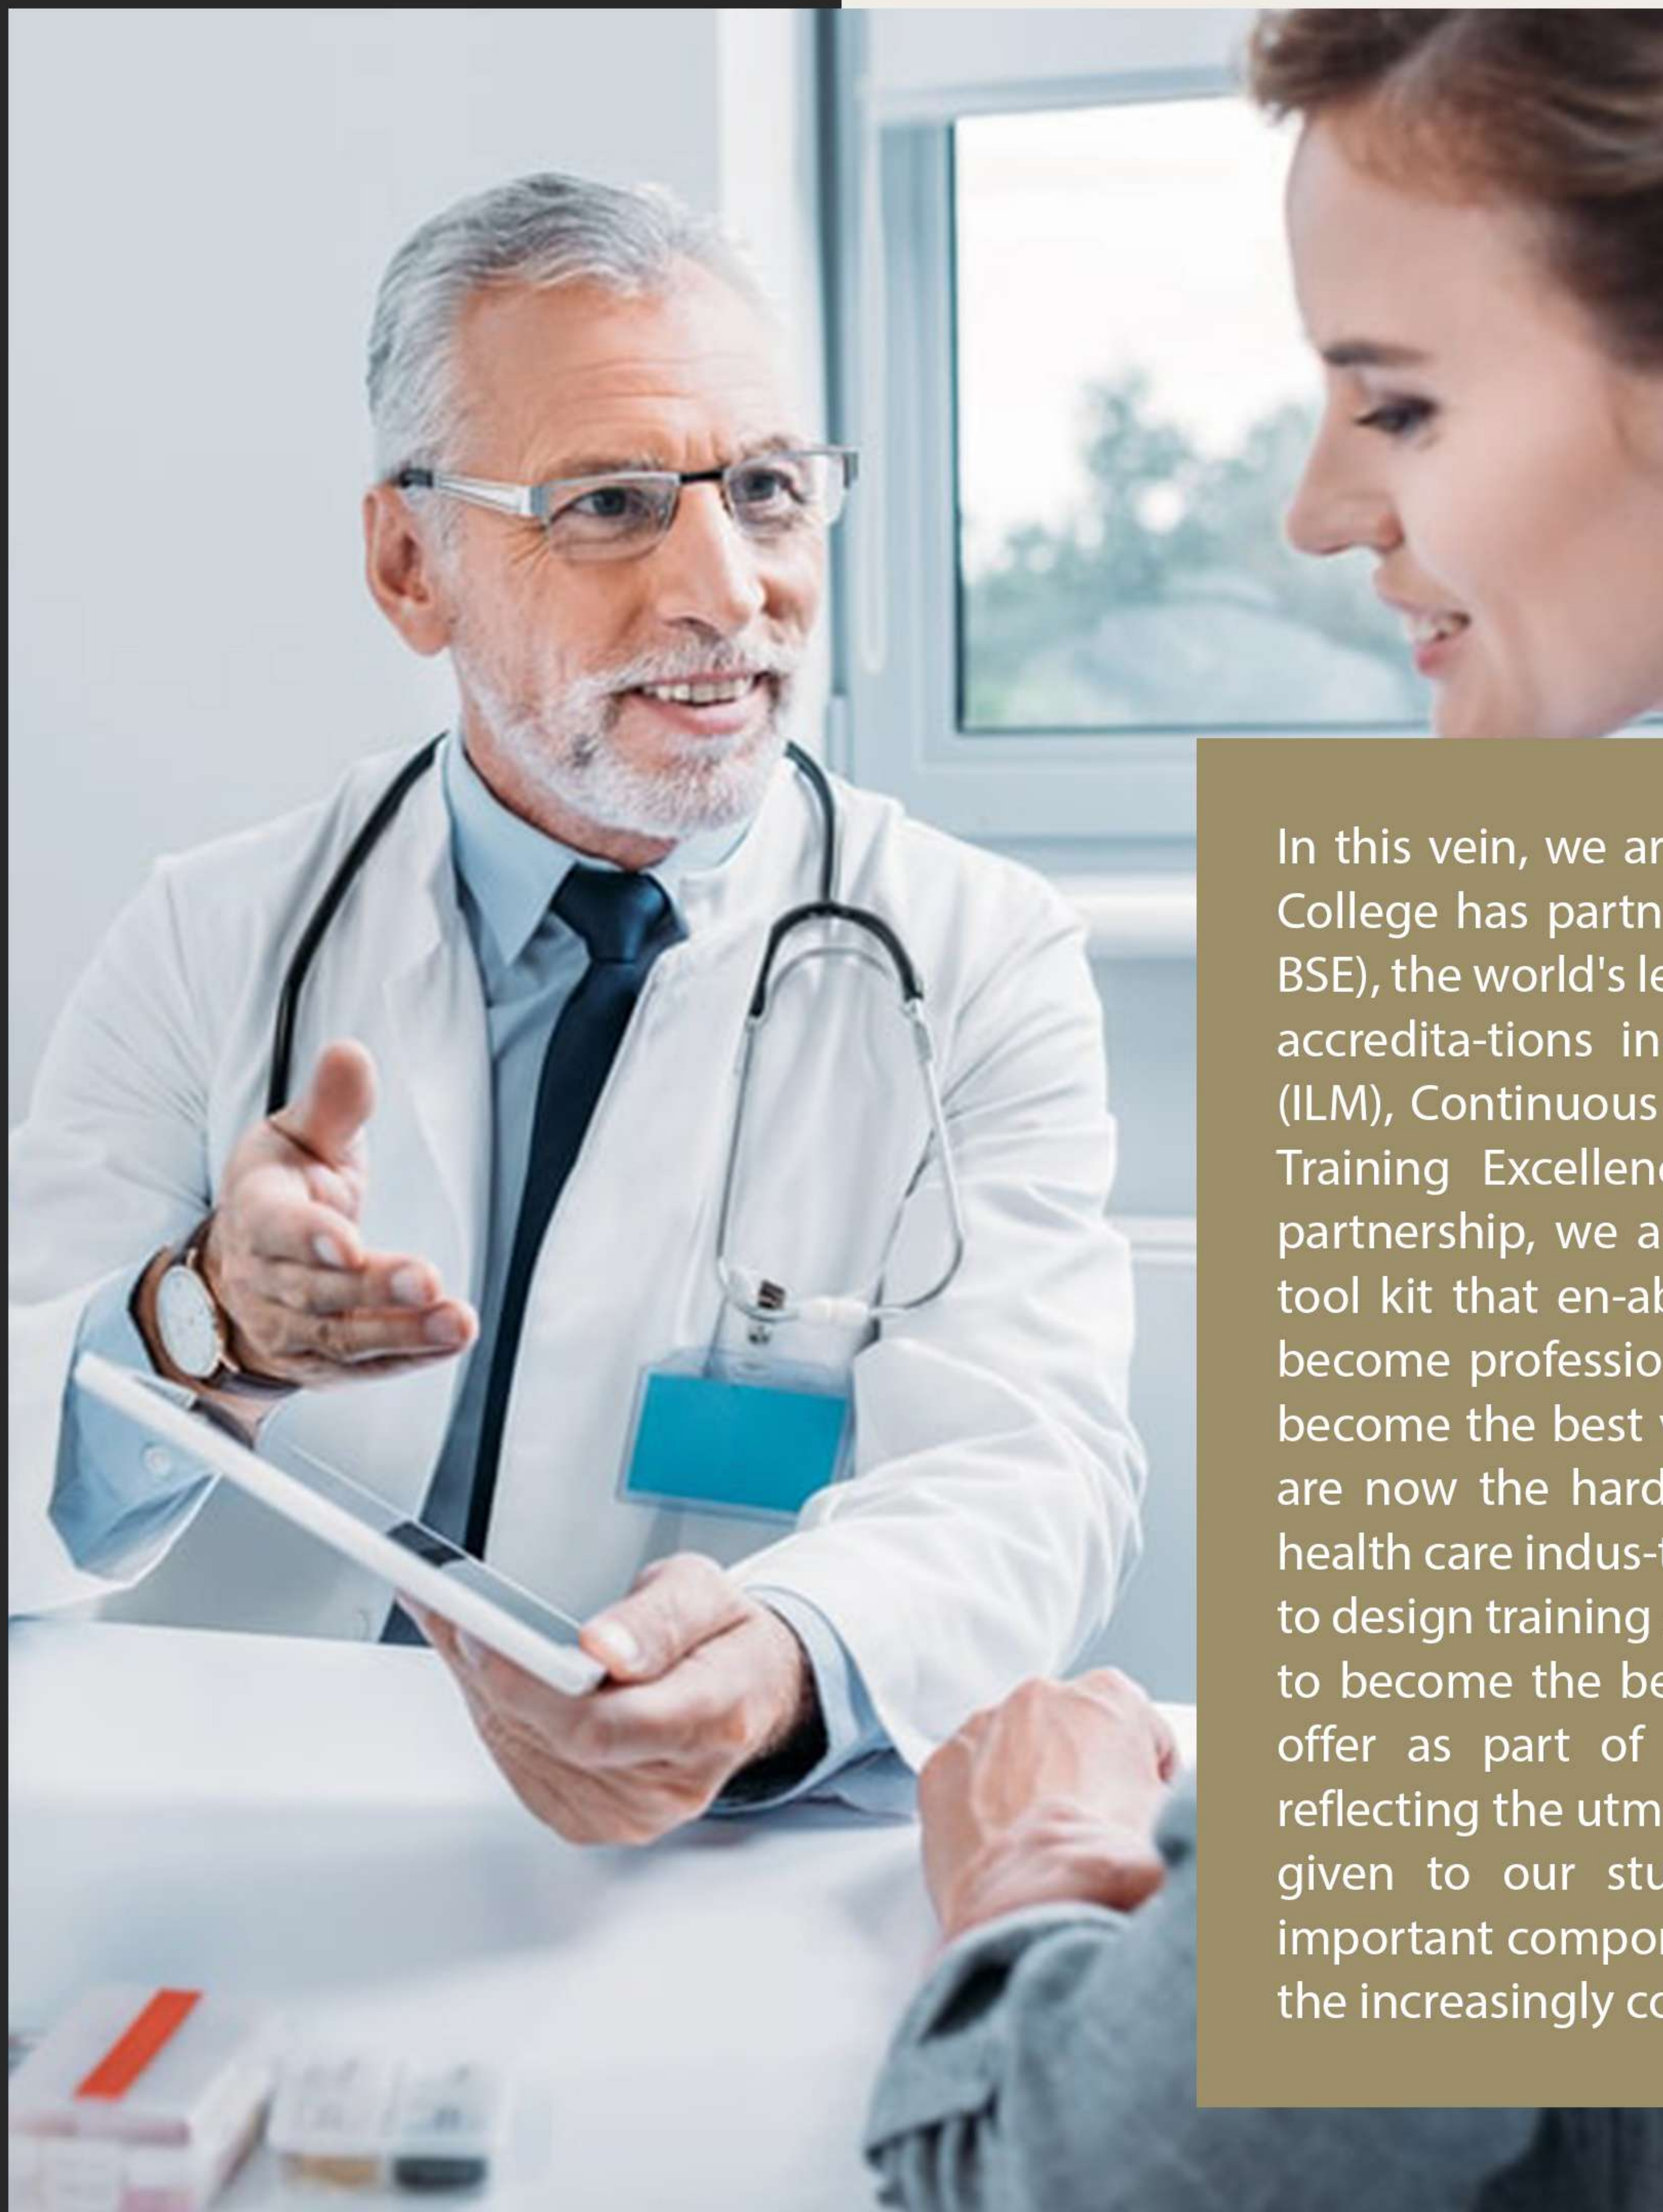

THE BRITISH SCHOOL OF EXCELLENCE LAHORE OVERVIEW

Avicenna Dental College has established itself as a leading dental college. Our students undergo rigorous academic training as illustrated in our historical KPIs (passing rates, time to graduation, placements). We pride ourselves on the fact that our students also receive comprehensive exposure in the clinical setting to gain requisite clinical knowledge.

Recognizing the shifts currently taking place in the medical profession, we are adding to our vision of producing competent doctors with the characteristics of a “seven-star” doctor. To excel, the core characteristics and competencies required of a medical and dental graduate to be a “seven-star” medical doctor have increased and require them to be skill full, well-read, articulate, a critical thinker who is able to disrupt and further professional frontiers, and at the same time lead and serve as a role model for others. Medical graduates in Pakistan must possess these characteristics so that they can become polished professionals with all-round knowledge that is on par with international standards.

THE BRITISH SCHOOL OF EXCELLENCE LAHORE

OVERVIEW

In this vein, we are proud to share that Avicenna Medical and Dental College has partnered with the British School of Excellence (AMCH x BSE), the world's leading etiquette training provider certified with four accreditations including Institute of Leadership and Management (ILM), Continuous Professional Development Office (CPD), Provider of Training Excellence and City and Guilds. With the AMCH x BSE partnership, we aim to provide our students with a comprehensive tool kit that enables them to invest in themselves, gain confidence, become professionals, and effectively change their lives so that they become the best version of themselves. With the belief that soft skills are now the hard skills that are required by every individual in the health care industry, we have collaborated with leading global experts to design training sessions that enable our medical and dental students to become the best version of themselves. Each of the modules we offer as part of the medical curriculum are accredited by CPD, reflecting the utmost quality standards of coaching and training that is given to our students. We believe these certifications to be an important component of our students' profile, giving them an edge in the increasingly competitive job-market.

LAHORE

THE BRITISH SCHOOL OF EXCELLENCE LAHORE

OVERVIEW

Avicenna Medical & Dental College is investing and inculcating professionalism in our students which encompasses a wide range of skills that students must gain during their academic journey with us. Through our training program, we aim to inculcate professional skills in our students that are critical to healthcare practitioners and enable them to perform as a doctor effectively and efficiently in Pakistan and abroad. At Avicenna, we continuously strive to work in line with our organization's mission which is 'educate and produce competent, research oriented healthcare professionals with professional commitment and passion for life-long learning from a group of motivated students through quality education, research and service delivery for the improvement of health status of the general population'. We believe that the partnership with the British School of Excellence will enable us to deliver excellence in training for our students. It will equip our students with the right tools to compete with polished professionals in health care across the globe.

THE ONES WHO DESERVE IT THE MOST”**

COMMUNITY IMPACT

One of the key goals of Avicenna Medical & Dental College and Hospital is our passion to give back to our community. To fulfil this objective, our students and faculty engage in multiple activities round the year. First, To foster community development, Avicenna conducts regular health camps in approximately 80 villages each month to address the health needs and problems of the community. Our students, house officers along with our senior staff visit each village and attend to the patient's medical and dental concerns and ensure that these are met. Besides this, we conduct regular community visits for our students to NGOs and care homes to inculcate a sense of community values in them.

We have conducted several specialised camps in various villages, factories and organizations to provide free consultation and medicines to those in need. Moreover, our camps encourage citizens to talk more openly about their healthcare issues and report back to the hospital to get quality treatment and care and affordable rates.

Our medical and dental camps are just one way we contribute towards community healthcare. Besides, we provide subsidized and also free health care to those who cannot afford to have access to it. For this, Avicenna Hospital offers patients to avail discounted or free treatment under the category of Zakat or Sadaqah. This enables us as an organization to contribute towards the healthcare of those at the bottom of the pyramid. Avicenna Hospital has also been approved and recognized as an A grade hospital for Sehat Sahulat Program of the Government of Punjab. Under this program, citizens of Pakistan can avail free treatment using their Sehat card, thus providing them with the opportunity to access good quality healthcare.

OUR ACHIEVEMENTS

AVICENNA MEDICAL & DENTAL COLLEGE & HOSPITAL

Based on WFME standards of quality of medical and dental education.

Initiation and implementation of Sehat Insaf Card for Avicenna Hospital under the Prime Minister's Sehat Sahulat Program.

Approval from DRAP for Avicenna Clinical Research Center.

Addition of Specialized Paediatric and Adult Neurosurgery Departments.

Addition of new CCL (Cardiac Catheterization Laboratory)

AVICENNA HOSPITAL

ACHIEVEMENTS AND STRENGTHS

Avicenna Hospital ensures that the poor community is able to get quality treatment at minimum rates.

1

COMMUNITY VISITS

Community visits to nearby villages by trained doctors & nurses

2

BLOOD BANK

All blood groups & cross-matching available

3

WHO VACCINATION

WHO approved vaccination center offering vaccinations for all children

4

INSURANCE COMPANY PATIENTS

We offer healthcare services for patients having EFU, Adamjee, Jubilee & State Life Insurance

5
