Report Overview

This report provides a summary of the services delivered through the Community Outreach Camps during 2024 and 2025. Over the two years, a total of 20,908 patients received care, demonstrating a significant and consistent commitment to community health.

Executive Summary

In summary, the outreach program successfully provided essential and specialized healthcare to thousands of community members over 2024 and 2025. The service model evolved, expanding from seven specialties in 2024 to eleven in 2025, thereby addressing a broader spectrum of health issues. The consistent high demand for General Medicine, Dental, and Physiotherapy services points to clear, ongoing community health priorities.

Patients Visits by Month

The camps operated throughout the year, showing variable monthly attendance. The year 2024 served a total of 11,319 patients, with the highest number of patients seen in March (1,799) and September (1,741). The year 2025 served 9,589 patients, with the busiest months being July (950) and January (1,066). Notably, while services were provided every month in 2025 and 2024. The combined data shows that February, March, May and September were consistently high-demand periods across both years. (Figure 1)

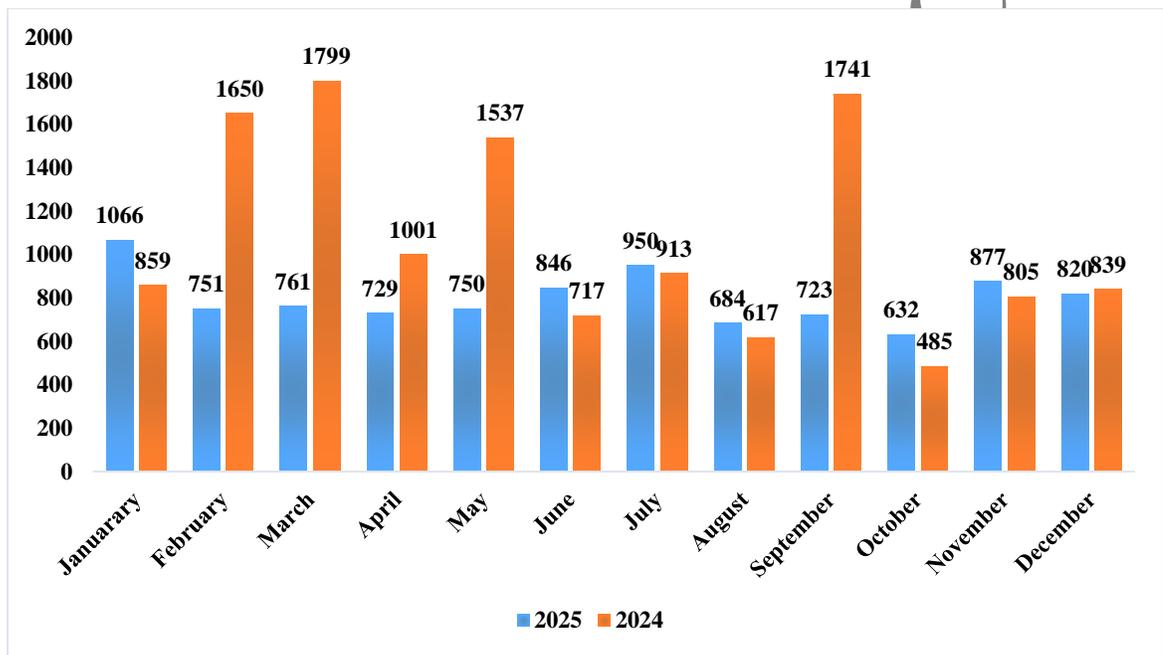

Figure 1: Number of Patients Seen in Community Outreach Camps during 2024 - 2025

Services by Medical Specialty

The camps provided a wide range of specialized care. General Medicine was the most sought-after service, treating 8,562 patients (41% of all visits) over the two years, highlighting a primary need for general healthcare. Dental care was the second most common service, with 3,912 patients, followed closely by Physiotherapy with 3,447 patients. Nutritional counseling also served a considerable number (1,972 patients). Other important specialties like Pediatrics, Gynecology, and new additions in 2025 such as Psychiatry, ENT, and Oral Surgery, catered to more specific community health needs, though in smaller numbers. (Figure 2)

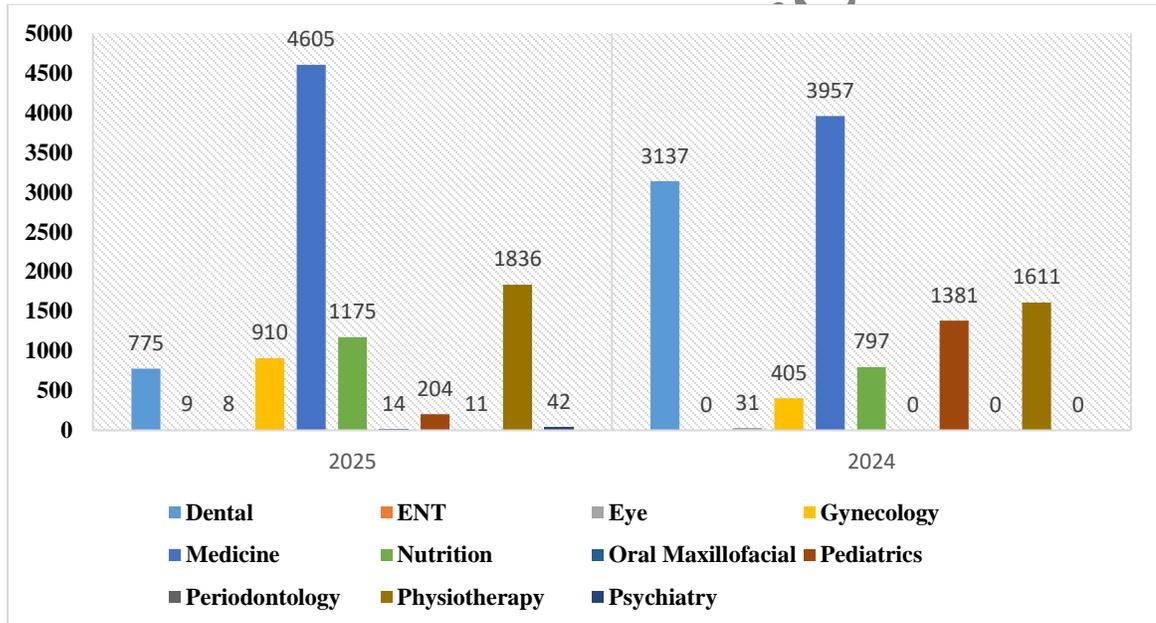

Figure 2: Number of Patients Seen Specialty-wise

Detailed Breakdown for 2024

In 2024, the range of specialties offered was narrower, focusing on seven key areas. Similar to 2025, General Medicine and Dental care were the predominant services. There was a notable surge in Pediatric patients in March (500) and May (365), and in Dental patients in February (810). Services were only recorded from January through October in 2024. (Figure 3)

Detailed Breakdown for 2025

A closer look at the 2025 data reveals how each specialty contributed month by month. General Medicine remained the core service, seeing patients consistently every month, with a peak of 467 in January. Other services, such as gynecology, Nutrition, and Physiotherapy, also showed steady activity throughout the year. Specialized services, including ENT, Eye, Oral Surgery, and Periodontology, were offered in specific months, indicating targeted camp initiatives. Pediatric services were concentrated in the first half of the year. (Figure 3)

Community Visits

Avicenna Medical College and Dental Hospital demonstrated a strong commitment to community engagement and public health through a series of impactful outreach initiatives. These included community visits to Fountain House and the Noreen Zafar Foundation, a free medical camp organized by the Pediatrics Department at Avicenna Hospital, and a dental awareness camp conducted in Askari 11, Sector C. In addition, MBBS and BDS students actively participated in a community visit to Care Hospital, fostering experiential learning and social responsibility. The institution also organized a Free Medical and Eye Camp at Avicenna Hospital and continued its dedicated free screening and support camp for Hepatitis C patients, reflecting Avicenna's sustained efforts toward accessible and compassionate healthcare for the community.
